RETURN of the BUDGETS of PUBLIC WORKS in INDIA, for the Years 1854–5, 1855–6, and 1856–7.

PUBLIC DEPARTMENT, 24 May (No. 32) 1853.

Our Governor-General of India in Council.

Preparation of annual schemes for the construction of roads and bridges, by the Governments of Fort St. George and Bombay.

Para. 1. WE have been anxiously awaiting the result of the inquiries which, in accordance with our orders of the 30th January 1850, have been instituted by the Governments of Fort St. George and Bombay with regard to the superintendence and execution of public works at those Presidencies.

2. In our consideration of the proceedings of the above-named Governments with regard to various proposed works of public improvement, and especially in the case of roads, we have often, and in that despatch especially, noticed the irregular and unsystematic manner in which the plans laid before them have been disposed of. The sanction given to the several schemes by the local Governments, or the recommendations made to your Government in favour of them, appear to have been grounded, too frequently, on considerations limited to each particular project, and having no reference to the general wants of the country. The natural consequence of such a mode of proceeding as regards roads, has been that large expenditure has not unfrequently been incurred on lines of inferior importance, while the trunk lines have remained in an imperfect state, on the ground that the necessary funds could not be spared to complete them.

3. In the despatch above referred to we showed ourselves strongly impressed with the evils arising from so imperfect and inadequate a mode of considering the subject, and referred to your consideration not only the best mode of departmental management to be adopted with regard to public works, but also the importance of taking into view all such works, and especially trunk and branch roads, as portions of one connected system. While we shall await the information referred to in the first paragraph of this despatch before entering on a consideration of the general subject, we are desirous that no time should be lost in applying a remedy for the particular evil we have pointed out.

4. It is our opinion that the object in view may best be attained by the adoption of a plan of the following description: each of the local Governments should require, annually, from the officers who in the respective Presidencies may be vested with the general charge of the roads, a statement of the new works most urgently required for the purposes of inter-communication, and the execution of which within the ensuing year he may be prepared to undertake. On receiving this statement it would be the duty of the Government to decide, after a careful consideration of the circumstances of the Presidency at the time, whether the works proposed had been properly selected, in preference to others, for immediate execution, and having come to a conclusion on this point, the whole scheme, involving the proposed expenditure on new roads and bridges for the coming year, should be submitted for your final sanction and approval.

5. The plan above indicated, though peculiarly required with reference to the means of internal communication, ought also to be applied to public works of

every description; and believing that much benefit would arise from the means it would afford of bringing annually under review the wants of each presidency as regards buildings, works of irrigation, and other works of a miscellaneous character, we direct that its operations be extended accordingly. It is desirable that with respect to these works, as in the case of roads, the statements should exhibit the entire expenditure proposed to be incurred on new works, whatever may be the amount of the estimate for each, and we forward to you, a number in the packet, a copy of the Ordnance Estimates, as annually laid before Parliament. You will find in that portion which relates to the Public Works, the Form giving the estimated expense of new works, and the past as well as probable expense of those in progress; and we should recommend that this Form should be adopted, so far as it is applicable to the circumstances in India.

6. We wish it to be distinctly understood, that in issuing these orders it is far from our desire either to place any further restriction on the amount heretofore expended on works of public improvement, or to deprive the Governments of Fort St. George and Bombay of any of the power they have hitherto possessed of authorising expenditure on such works. Our object is primarily to secure the application of the money to be expended in such a way as to produce the greatest possible benefit to the country and to the community; but the proposed plan, while preserving to your Government that general control over the finances of India which it is intended that you should possess, will have the advantage of relieving your Government from that unnecessary distraction of attention and waste of time which arise from a number of separate projects relating to objects of a kindred nature being brought under your consideration at different periods.

We are, &c.

(signed) *R. Ellice.*
J. Oliphant.

London, 24 May 1853. *&c. &c.*

EXTRACT Public (Home) Letter from India, dated 28th April (No. 23) 1854.

Despatch No. 32, of 1853, dated 24th May.

Suggesting a scheme with the view of ensuring the execution of public works, with greater regard to the general wants of the country than to considerations limited to each particular project.

Home Consultation, 3d March 1854, Nos. 1 & 2.

38. The several local governments have been instructed to adopt the plan suggested by your Honourable Court in this despatch, and to submit annually for our consideration a statement according to a Form prescribed, of the new works, such as roads, bridges, works of irrigation, and other works of a miscellaneous character, which are most urgently required, and the execution of which they are prepared to undertake within the ensuing year.

B U D G E T

FOR THE YEAR

1854–55.

MADRAS PRESIDENCY.

STATEMENT No. 1.—LIST of ESTIMATES requiring the Sanction of the Government of India for 1854-55.

Bombay Castle,
October 1854.

(signed) *C. E. Fraser Tytler,*
Offg. Secy. to Government.

(No. 633 A. of 1855.)

From *William Muir*, Esq., Secretary to Government, North Western Provinces, to Lieutenant-Colonel *W. E. Baker*, Secretary to Government of India, Public Works Department.

Department Public Works.

Sir,

I AM desired to forward, for the information of the Honourable the President in Council, the statements noted in the margin,* of which No. 2 has been only recently received from the Chief Engineer, North Western Provinces.

2. Statement No. 1. is not submitted, as it is now, of course, much too late to submit any new projects for works to be executed during the current year, 1854-55.

3. I am desired to add, that Statement No. 2 A. includes all the works that have been sanctioned on account of 1854-55, from the general funds of the state, by the government of these provinces, for execution by the civil officers of districts, who, in regard to all the larger items of expenditure, are instructed to act under the advice of the local executive officers.

I have, &c.

(signed) *W. Muir*,
Secretary to Government, N. W. P.

Head Quarters, Nynee Tal,
25 April 1855.

---

* Statements, No. 2 and No. 2 A. of Expenditure within the year 1854-55, proposed to be made upon sanctioned works in the North Western Provinces.

39. Clearing the road from Mussoor to Oomruz, in the Sargaum talooka, distance 3½ miles	550	–	–	–	–	–	–	–	–	550	–	–	—	
40. Road from Chiptoon to Kurar, over the Koombharlee Ghât	7,28,705	–	–	2,00,000	–	–	51,877	–	–	*1,20,000*	–	–	*5,56,828*	– –
41. Clearance of a road from the Neera River, near Hirdosee, to join the main road at Lound	11,220	–	–	–	–	–	–	–	–	11,220	–	–	—	
42. Making the Pussurnee Khind between Mahableshrour and Waee practicable for bullock traffic	6,865	–	–	–	–	–	–	–	–	6,865	–	–	—	
43. Clearing a branch road between Rymutpoor and Seerumbeh, six miles	700	–	–	–	–	–	–	–	–	700	–	–	—	
44. Clearing for cart traffic the road marked out by the civil engineer, Sattara, between Sattara and Kurar, at 200 rupees per mile	6,200	–	–	–	–	–	782	4	11	5,418	–	–	—	
45. Constructing a travellers' bungalow at Aleet instead of at Seergaum Wurgaum, as sanctioned by Government letter, No. 4224, of 19th December 1853	2,000	–	–	–	–	–	590	1	–	1,410	–	–	—	
46. Completing the portion of the road from Ahmella to Punderpore, in the Sholapoor collectorate, passing through the Sattara collectorate, about 12 miles, at 200 rupees per mile, under the Collector of Sattara	2,400	–	–	–	–	–	–	–	–	2,400	–	–	—	
47. Constructing twelve huts, one at each of the travellers' bungalows, in the Sattara districts, for the accommodation of peons	571	–	–	–	–	–	–	–	–	571	–	–	—	

Owing to the circumstances mentioned in para. 3 of the letter accompanying the present Budget, it is feared that the progress of this work in the first year will not be equal to the desire of the Government of India, as expressed in para. 13 of Mr. Secretary Beadon's letter, No. 110, of 26th January 1855. The progress in future years, however, it is hoped, will be much more rapid.

	European Infantry:								
Rawul Pindee	Ten single barracks at *Rs.* 55,892. 13. 6. each.	5,58,928 7 –	5,58,928 7 –	3,32,288 15 –	2,26,639 8 –	– – –	Five of these barracks are occupied, but they require flooring and steps all round. Two more are nearly complete, two far advanced, and the remaining one foundation and plinth laid.	The estimated expenditure for the Rawul Pindee cantonment during the current year, is 4,79,000 rupees. I have no doubt this sum will be required.	
	Four married barracks, at *Rs.* 18,349. 4. 2.	73,397 – 8	– – –	2,093 14 11	71,303 1 9	– – –	Foundation and plinth of one laid; none of the others commenced.		
	Two privies	7,744 4 4	7,744 4 4	– – –	7,744 4 9	– – –	There are also two other married barracks, as also washhouses and reading rooms to the barracks, together with centre wing to hospital in European infantry lines, with bathhouses and privy complete, but are not included in the statement, as it is uncertain whether they could be put in hand this year. The Executive Engineer hopes to complete all the works enumerated herein during the current year, should the weather prove favourable.

	Chain cables for the Ravee Bridge	9,521 4 8	— — —	— — —	9,521 4 8	— — —	Proposed for Ravee Bridge, in supercession of ropes.	- ditto - - ditto.	
	Construction of boats	—	—	—	—	—		The total estimated expenditure for Anarkullee is *Rs.* 37,117. 4. 3. A considerable portion will probably be required, but how much in the absence of information it is difficult to fix.	
	TOTAL	37,117 4 3	1,686 14 6	— — —	37,117 4 3	—			

Ferozepore -	New arsenal - - - -	General sanction	Unlimited - -	1,00,924 - -	1,50,000 - -	- - -	The works which may be expected to be completed within the official year, are as follows: viz., three faces of gun sheds, and the entire buildings forming the quadrangle. The ground was unfavourable for the arrangement of half company barracks, as originally sanctioned. A design was therefore prepared, and submitted for the consideration of his Excellency the Commander-in-Chief, who approved of it. It is now in course of submission, and will immediately follow this document.	The sum now estimated for will, no doubt, be required. The chief engineer will be desired to cause estimates to be prepared during the year for future expenditure on these works. About two lakhs of rupees will be required during the year for these barracks.
	European infantry barracks - -	6,73,292 5 6	1,00,000 - -	6,342 11 6	2,01,987 11 3	4,64,961 14 9		
	Two married barracks for artillery division.	40,900 14 -	40,900 14 -	10,000 - -	30,900 14 -	- - -	Will be completed by end of June.	The balance *Rs.* 30,900. 14. will, no doubt, be required.
	Filling holes in cantonment - -	11,079 15 -	- - -	1,341 12 2	6,079 - -	- - -	Ditto by end of July - -	This sum will also be expended.
	General drainage of cantonment -	- - -	- - -	6,820 13 3	3,179 2 9	- - -	Ditto - - ditto - -	Ditto - - ditto.
	Metalling cantonment roads - -	23,819 1 2	10,000 - -	9,200 15 7	13,819 1 2	- - -	Will be completed this year -	Will probably be required, but estimates have not as yet been received.
	Bridging large nullah - - -	3,765 10 -	3,765 10 -	1,047 11 8	2,717 14 4	- - -	Ditto in June - - -	Ditto - - ditto.
	Artillery single fives court - -	2,644 - 4	- - -	- - -	2,644 - 4	- - -	- - - - - -	Ditto - - ditto.
	Artillery orderly room - - -	1,028 - 7	- - -	- - -	1,028 - 7	- - -	- - - - - -	Ditto - - ditto.
	Thermantidote for European hospital	2,625 - -	- - -	1,750 - -	875 - -	- - -	- - - - - -	Ditto - - ditto.
	Addition to foot artillery barracks -	7,244 12 -	- - -	- - -	7,244 12 -	- - -	- - - - - -	This item seems doubtful.
	Artillery harness room - - -	1,940 13 6	- - -	- - -	1,940 13 6	—		
	Addition to 5th light cavalry quarter guard.	181 12 9	- - -	- - -	181 12 9	—		
	5th light cavalry harness room - -	3,992 14 6	- - -	- - -	3,992 14 6	—		
	TOTAL - - -	7,72,515 3 4	1,54,666 8 -	1,37,428 - 2	4,26,591 1 2	4,64,961 14 9		

In the absence of reports and estimates, it is not possible for me to fix on the precise sum which will be expended on the Ferozepoor cantonment during the current year; but if the works are to go on, the estimate of 4,26,591 rupees may be considered a close approximation to the truth.

Jullunder - -	Three married barracks for European infantry.	1,02,722 7 5	General sanction	16,559 2 7	86,163 4 10	—		
	Pro. serjeant's bungalow (60th Rifles), rear guard, ball court, &c.	12,334 11 7	12,334 11 7	3,621 8 7	8,713 3 -	--		
	Married barrack for artillery - -	14,867 1 4	General sanction	8,179 14 11	6,687 2 5	—		
	Staff barrack artillery orderly room -	10,944 - -	10,944 - -	9,018 4 2	1,925 11 10	—		
	Well in artillery soldiers' garden -	871 14 5	- - -	- - -	871 14 5	—		
	Addition to European infantry ball court	140 10 8	- - -	- - -	140 10 8	—		
	Commander's kutchery and out-offices	1,256 2 3	1,256 2 3	- - -	1,256 2 3	—		
	Burial ground wall - - - - -	513 1 2	- - -	- - -	513 1 2	—		
	Various excavations - - - -	9,155 - -	9,155 - -	6,556 15 7	2,598 - 5	- - -	G. O. C. C.	
	Draining cantonment - - -	- - -	- - -	15,212 10 1 6,164 12 9	10,000 - -	- - -	Commencement sanctioned by Military Board, but the project was incomplete. The Executive Engineer has been called on to complete it, and submit an estimate.	
Bagsoo - -	Convalescent bar - - - -	- - -	- - -	9,650 2 3	5,000 - -	—		
Kangra - -	New works hospital - - - -	9,155 8 6	9,155 8 6	9,658 1 6	10,000 - -	—		
	Batteries privies in garrison - -	41,305 12 4	33,221 - -					
Kangra & Noorpore	Cattle shed - - - - -	7,158 - -	—	—	—	—		
Noorpore - -	Sepoys' barracks and hospital - -	24,864 9 4	- - -	12,445 12 6	12,418 12 10	—		
Hoosbaiarpore -	Wells in irregular cavalry lines horse hospital.	- - -	- - -	2,693 1 6	500 - -	—		
	TOTAL - - -	2,35,288 15 -	76,066 6 4	99,760 6 7	1,46,787 15 10	—		

For the same reasons I cannot speak certainly as to the expenditure on the Jullunder cantonment, but it will doubtless not fall much short of the estimate, 1,46,757 rupees.

Sutlej and Beas Road.	New road	– – –	– – –	– – –	1,20,000 – –	—			
	New line, leading from east cantonment, Jullunder.	– – –	– – –	765 4 6	– – –	– – –	– – – – – –	The sums marked A. are said to be required to make the old road passable through the Jullunder Doab. No estimates have been received; but it is probable that the estimated expenditure will be found necessary.	
	Temporary line, from Dialpore to Mubowalee.	– – –	– – –	471 12 10	A.				
	Permanent line, between Umbowal and the Beas.	– – –	– – –	466 14 7					
	Metalling road from Phillore to the Beas	– – –	– – –	11,640 – 5	– – –	– – –			
	Dismantling station of Kurtarpore	– – –	– – –	178 6 10	—		Sanctioned by Chief Commissioner.		
	Collection of material for and maintain- old line of road.	*70,000 – –	– – –	500 6 –	30,000 – –	– – –	* So great an expenditure for maintaining the old road would be much better laid out upon the new one. The executive officer, being inexperienced, has not yet sent in his estimate, nor data for estimates, and the work has been suspended, to enable him to do so, and bring up his accounts. A general estimate, based upon the cost of a road over similar country, has been sanctioned.	This expenditure seems to me to be doubtful; I am not at all certain it will be necessary.	
	TOTAL	70,000 – –	– – –	14,022 13 2	1,50,000 – –	—			

Lahore and Ferozepore Road.	New line of road from Lahore to Koondah Ghât, on the Sutlej.	3,84,534 – –	– – –	– – –	1,00,000 – –	– – –	-- Earthwork and preparation of materials sanctioned.	-- This expenditure will probably be found necessary; the road is of great importance.
6th Division:—								
Grand Trunk Road	Collection and consolidation of two coats of metal.	1,15,089 15 7	– – –	– – –	– – –	– – –	-- The metalling has been almost completed with two coats of kunkur; the quantity for a third coat has been, I believe, nearly all collected; 30,000 rupees ought therefore to suffice for metalling. The estimates for all the bridges were sent last year to the Military Board, but there are several of them upon which no orders have been passed. † This amount will be required, according to rough estimate (viz. 4 lacs rupees); but the Mar Kundah bridge cannot be completed during this year: the whole amount required for this division for new works will be about 1,00,000 rupees for 1855–56.	-- I have no details of this expenditure, but it will probably be required.
	Ditto - ditto third coat - -	57,544 15 9	– – –					
				No accounts received.	1,00,000 – –	—		
	Central Soursutta Bridge, with two Mar Kundah flood viaducts.	90,000 – –	– – –					
	Bridge over Mar Kundah river - -	†3,00,000 – –	– – –					
	Total - - -	5,62,634 15 4	– – –	– – –	1,00,000 – –	—		
7th Division:—								
Grand Trunk Road	Metalling - - - - - -	1,00,000 – –	– – –	– – –	– – –	– – –	-- The estimates for metalling have been submitted, and the greater portion of the work has been executed; but some of the most expensive sections, owing to distance of carriage, remain for completion. The superintending engineer, therefore, assumes that the amount exhibited is still required on this account.	
	‡ Bridges over the Jode Dhurrah - - Two Paugna - - Three Rujpoora - (Nullahs and watercourses)	1,75,000 – –		Expenditure trifling, materials being collected. No accounts received.	3,00,000 – –	—	‡ These seven remain for completion out of the whole of the minor bridges; assuming 25,000 rupees as the average cost, 1 lakh and 75,000 rupees will be required for them.	-- I have no details of this, but the expenditure, I believe, will be found necessary.
	Bridges over the Omla and Tangri rivers.	4,00,000 – –	General sanction				I am not able to state exactly the amount for these, but the executive officer has been called on for plans and estimates very nearly two years ago; however, assuming a sum with reference to the cost for other bridges on the grand trunk road, I may, on a rough, set down 9 lakhs of rupees. § Of this, 2 or even 2½ lacs will be required during next working season. This will give a maximum total of 3 lacs of rupees as the demand, and it is but proper, also, to remark here, that the entire drainage of the Himalaya range, between the Sutlej and Jumna rivers, crosses the line of the trunk road where these bridges are required to be constructed.	
	Tangrah river - - - - -	50,000 – –						
	Guggur river, with approaches on both sides.	4,00,000 – –						
	Old Guggur river - - - - -	50,000 – –						
	Total - - -	§11,75,000 – –	– – –	– – –	3,00,000 – –	—

The sum expected to be expended during the current year in the Second Circle is something more than 26 lacs of rupees (260,000 *l.*) I do not anticipate be found necessary.

The expenditure may be thus classed: 16½ lacs are required for the military cantonments, and the rest, or nearly 9½ lacs, for the high roads in the Cis and It is very difficult, perhaps practically impossible, to place any effective check on the expenditure in military cantonments. Large and expensive works are is not sufficient, and many of the executive officers not experienced; hence the difficulty of checking expenditure effectually is very great.—*J. L.*

STRAIT'S SETTLEMENTS.

STATEMENT of New Projects of Works recommended for Sanction in the Strait's Settlements, for the Year 1855-56.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1855-56.	REMARKS.
		Co's. Rs.		*Co's. Rs.*	
Singapore - -	New Protestant Church - -	40,000	2 years - -	20,000	
Ditto - -	New Court House - - -	35,000	2 years - -	10,000	
Ditto - -	New Government House - -	35,000	2 years - -	10,000	
	Total - - - *Co's. Rs.*	1,10,000	- - -	40,000	

Singapore, 31 May 1855.

Richard Cox,
Officiating Secretary to the Governor.

STATEMENT of Works in course of Construction.

No.	NAME OF WORKS.	REMARKS.	PROBABLE DATE OF COMPLETION.
1.	Combined Lines - - -	No. 3 barrack, 250×58, divided into five wards. The brick-work completed of three; putting up the wall plates for the couples.	In March.
	Serjeants' Quarters - - -	Wood-work of the roof completed. The tiling commenced; out-houses built.	In the first week of February.
2.	Fort Tullerton, 5 gun-battery -	Levelling the terreplein of the battery - -	Completed; three 56-pounders and two 32-pounders mounted.
		Blasting and carrying away to Johnston's Jetty a large mass of rocks.	
3.	Lakes' Battery - - -	The terreplein of the battery has been sunk in some places 11 feet in depth; the foundation laid, and the granite ways of the platforms dressed.	In February.
4.	Mount Faber Battery - -	2 13-inch mortars battery - - - - - -	Completed.
		2 68-pounders; brick-work completed with the exception of the upper line of brick on edge; earth-work yet unfinished.	Brick-work will be finished in four days. The guns will be mounted in a few days.
5.	Raffles' Lighthouse - -	Will be completed to the height of the balcony in 10 days. As the apparatus for the lighthouse is very small, being of the third order, I shall proceed at once to the completion of the building; the walls of the keepers' and assistants' living rooms have been completed; about half the room finished.	In March.
6.	Johnstone's Jetty - - -	This has been completed to the extent of 300 feet from Battery road. The low tides usual in January and February will enable me to bring this work to an early completion, if sufficient party be detailed for the foundations of the head of the ghât.	Probably about the end of February or beginning of March.
7.	Fish Market at Campong Glam	Just commenced - - - - - - -	About two and a half months from date of commencement.

Singapore, 21 December 1854.

(signed) *H. Man*, Captain,
Executive Officer, and Superintendent of Convicts and Roads.

(True copy.)
(signed) T. Church, Resident Councillor.

(signed) *J. H. Bullock,*
Deputy Commissioner,
Northern Division, Berar.

STATEMENT of NEW PROJECTS of WORKS, &c., recommended for Sanction in the SOUTHERN DIVISION, BERAR DISTRICTS, for the Year 1855-56.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1855.	REMARKS.
		Rs. a. p.			
Nursee and Mekhur -	Fair-weather road between Nursee and Mekhur, *vid* Lonhar, being 58 miles.	34,800 – – (at 600 rupees per mile).	Two years -	- - -	There is no communication at present between the two towns, Nursee and Lonhar, but by beaten tracks. The internal communication between the towns in the assigned districts is of the utmost importance, and a first consideration.
Nursee and Bassim -	Fair-weather road between Nursee and Bassim, *vid* Goragaon, being 28 miles.	16,800 – – (at 600 rupees per mile).	Two years -	- - -	There is no communication at present between the two towns, Nursee and Bassim, but by beaten tracks. The internal communication between the towns in the assigned districts is of the utmost importance, and a first consideration.
Bassim and Karinjah	Fair-weather road from Bassim to Karinjah, being 40 miles.	24,000 – – (at 600 rupees per mile).	Two years -	- - -	There is no communication at present between the two towns, Woon and Karinjah, but by beaten tracks; much of this road is covered by dense jungle, and parts of it is rocky; hence its construction being estimated at 1,000 rupees per mile.
Karinjah and Woon -	Fair-weather road from Karinjah to Woon, being 120 miles.	1,20,000 – – (at 1,000 rupees per mile).	Two years -	- - -	There is no communication at present between the two towns, Karinjah and Woon, but by beaten tracks. The internal communication between the towns in the assigned districts is of the utmost importance, and a first consideration.
Karinjah and Budneira	Fair-weather road from Budneira to Karinjah, being 38 miles.	22,800 – – (at 600 rupees per mile).	Two years -	- - -	There is no communication at present between the two towns Karinjah and Budneira, but by beaten tracks. The internal communication between the towns in the assigned districts is of the utmost importance, and a first consideration.
Southern Division, Berar Districts.	Cleaning out cusbahs and villages in the districts of Southern Division, Berar.	25,000 – –	Two years -	- - -	The towns and districts are in a most filthy state, all requiring to be cleansed. It is proposed that the sum stated to be required shall be expended on the work, and bills sent in monthly of the expenditure.
Southern Division, Berar Districts.	Restoring 500 wells, out of 6,000, in the districts reported out of repair, at 100 rupees each.	50,000 – –	Five years -	- - -	My attention was given to the importance of restoring wells that have been allowed to fall in; 6,000 in all the districts were reported out of repair. I have put down only 600, intending to repair those most useful. Almost all the irrigation in Southern Berar is from wells; many villages are entirely dependent upon them for water to drink.
Lonhar Lake - -	To repair an embankment now in ruin, to prevent a rush of water into the lake during the rains.	25,000 – –	Two years -	- - -	The lake of Lonhar yields a variety of salts, and formerly, when the embankment was in repair, gave a revenue to Government of nearly 1,00,000 rupees every second or third year. From inquiries I have made I am of opinion that the expenditure upon the embankment will be well laid out, producing a certain and great return.

Hingolee, 25 August 1855.

(signed) *James Johnston*, Major,
Deputy Commissioner,
Southern Division, Berar District.

REPORT of Progress of Public Works during the Year 1854-55, in Eastern Division, Raichore Doab.

DESCRIPTION OF WORK.	Estimated Total Cost.	Expended during the Year.	Total Expended.	Date of Completion, or State of Progress.	EXPLANATORY REMARKS.
	Rs. a. p.	*Rs.* a. p.	*Rs.* a. p.		
Road from Toombudra to Kallachabootra Ghât, continuation of Bellary road towards Secunderabad, sanctioned as per Resident's letters, No. 493, of 26 April 1854, and No. 483, of 23 March 1855.	28,967 11 8	14,291 5 6	19,287 3 7	12 miles, 8 furlongs, 173 yards of road finished; 16 miles 5 furlongs yet remain to be done.	The whole of the road will, with the exception of rubble pavements, which will be finished by the close of the year 1855, be metalled and ready for traffic during September 1855. Amount originally sanctioned was *Rs.* 10,916. 3. 6; but the work having been then constructed as a work of charity to employ the poor of the district, the expenditure unavoidably exceeded the amount of the estimate by *Rs.* 1,665. 9. 8., for which contingent bills were passed. A supplementary estimate, amounting to *Co.'s Rs.* 10,385. 14. 6. was therefore afterwards submitted, and it received the Resident's sanction. The work is now being done by contract, and there is no doubt that the whole will be completed before the close of 1855.
Repairs of Bichal Annicut and Channel, ditto, No. 24, of 9 January 1854.	12,396 11 1	1,144 15 4	1,630 12 11	Materials have been collected.	Work postponed until the services of proper superintendent can be obtained.

Offg. Deputy Commr., Eastern Division, Raichore Doab.

WESTERN DIVISION, RAICHORE DOAB.

No. 1.—ESTIMATE for the Construction of a ROAD from Belgaom Collectorate, through Western Division, Raichore Dôab, on Tomboddra, opposite Hutcholy.

PARTICULARS.	ESTIMATE COST.	REMARKS.
1st Class:	*Rs. a. p.*	
To 66 miles of road (whereof two-fifths may be red, and three black soil), 6 yards wide, laid with moorum, and ditches on either hand, from Tondihal, S. E., through Leckihal, Moodoonoor, Medukinhal, Bussapoor, Sindnoor, and Yeddugnahal; say - - - - - - - - - - -	31,800 – –	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 2.—ESTIMATE for the Construction of a ROAD from Lingsoogoor (W.) to Leckihal.

PARTICULARS.	ESTIMATE COST.	REMARKS.
1st Class:	*Rs. a. p.*	
To 20 miles of road (whereof half red and half black soil), 6 yards wide, laid with morrum, and ditches on either hand, from Lingsoogoor, W., to Leckihal, or nearest point of road passing through that place from Moodebhal to Sindnoor; say - - - - - - - - - - - -	9,000 – –	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 3.—ESTIMATE for the Construction of a ROAD from Moodgul (S. W.) to Dharwar Frontier.

PARTICULARS.	ESTIMATE COST.	REMARKS.
1st Class:	*Rs. a. p.*	
To 58 miles of road (whereof four-fifths may be black, and one red soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Moodoonoor, Kooshtajee, and Yelboorgah; say - - - - - - - - - - -	27,600 – –	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 4.—ESTIMATE for the Construction of a ROAD from Lingsoogoor (N. E.) towards Deodroog.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 22 miles of road (whereof two-thirds are black, and one red soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Goorgoontah; say - - - - - -	5,900 – –	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 5.—ESTIMATE for the Construction of a ROAD from Lingsoogoor (E. S. E.) to Panumkelloor, on Raichore and Hyderabad Road.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 12 miles of road (whereof three-fourths are black, and only one red soil), 6 yards wide, laid with moorrum, and ditches on either hand, from Lingsoogoor, E. S. E. to Panumkelloor, on Raichore and Hyderabad road; say - - -	3,300 – –	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 6.—ESTIMATE for the Construction of a ROAD from Lingsoogoor (S.S.E.) towards Sindnoor and Adonie.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 26 miles of road (whereof half may be red, and half black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Santakelloor and Mooshkee, to Bussapoor; say - - - - - - - - - - - - -	6,500 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 7.—ESTIMATE for the Construction of a ROAD from Gungawutty (N.E.) to Sindnoor.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a p.*	
To 36 miles of road (whereof nearly all is black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Seedapoor, Boodgooppa, and Rowlconda; say - - -	10,800 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 8.—ESTIMATE for the Construction of a ROAD from Gungawutty (W.S.W.) to Genigeyree, on Copaldroog Road.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 24 miles of road (whereof two-thirds red and one black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Busswaputtun and Indree; say - - -	5,600 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 9.—ESTIMATE for the Construction of a ROAD from Copaldroog (N.W.) to Yelboorgah.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 27 miles of road (whereof so little is red that the whole may be assumed as black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Rookemoor; say - -	8,100 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 10.—ESTIMATE for the Construction of a ROAD from Copaldroog (S.W.) to Dharwar Frontier.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 20 miles of road (whereof all black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Couroor; say - - - - - - - - - - - -	6,000 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 11.—ESTIMATE for the Construction of a ROAD from Kooshtagee (E.) to Nowli.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 30 miles of road (whereof two-thirds are red and remainder black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Tuwurgeeree; say - - - -	7,000 - -	Through black soil the road will cost more than average, but not so much over red, where little making and less drainage are required.

No. 12.—ESTIMATE for the Construction of a ROAD from Kooshtagee (N.N.W.) to Belgoam frontier, near Hoongoond.

PARTICULARS.	ESTIMATE COST.	REMARKS.
2d Class:	*Rs. a. p.*	
To 27 miles of road (whereof half may be red and half black soil), 6 yards wide, laid with moorrum, and ditches on either hand, through Humunsagur and Hooleegeyree; say - -	6,750 - -	Through black soil, the road will cost more than average, but not so much over red, where little making and less drainage are required.

Western Division, Raichore Doab.	1. Nidshaishee tank - - - -	3,767 3 –*	3,074 12 –	3,074 12 –	The greater portion of the work has been completed, and the ruptured bund repaired, so that about 100 acres of land may be irrigated at a rental of 600 rupees; but *Rs.* 1,640. 2. 11. more are required, and were estimated for (in projects of works for 1854-55 sent in), to fully develop the resources of the tank.	Sanctioned by Supreme Government in Officiating Under Secretary's letter, No. 1920, of 5 May 1855.
	2. Indree tanks (3) - - - -	1,687 14 –	979 – 2	979 – 2	Only one of the three tanks has yet been repaired; it will be available this year for the irrigation of 50 or 60 acres, worth about 300 rupees. From want of effective supervision, the amount sanctioned proved insufficient, and a further sum of *Rs.* 368. 5. 4. was included in estimate for 1854-55 sent in. The work could not be stopped *in medias res*, so the money noted was spent in anticipation; but, unfortunately, a heavy fall of rain in October 1854 caused such a rush upon the new work, that the water overflowed, and again breached the bund, as reported in letter No. 375 of 16 October 1854.	Sanctioned by Supreme Government in Officiating Under Secretary's letter, No. 1236, of 24 March 1854.
	3. Kokimpullee tank - - - -	678 2 –*	951 13 6	951 13 6		
	4. Kooshtagee talook cutcherry - -	215 1 5	215 1 5	215 1 5	Completed 8 May 1855 - - - - - -	Emergent; sanctioned by the Resident in First Assistant's letter, No. 1411, of 4 November 1854.
	5. Channels leading to Ginneygeyree tank	283 – 8	185 1 3	185 1 3	For two irrigation channels, whereof one is completed and the other postponed till after rains.	Emergent; sanctioned by the Resident in First Assistant's letter, No. 1444, of 8 November 1854.
	6. Hooligi, &c., canals - - -	2,493 4 5*	590 6 10	590 6 10	Completed 26 April 1855 - - - - - -	*Vide* budget of repairs for 1854-55, dated 29 August 1854. Although they were included in one estimate, owing to their propinquity, these two are entirely distinct systems of canals.
	7. Uttiwuttee, &c., canals - - -		1,107 12 11	1,107 12 11	Completed 21 April 1855 - - - - - -	
	8. Sungmeshwur, &c., canals (*alias* Korzul) - -	815 – 4	800 – –	800 – –	Completed 19 June 1855 - - - - - -	Emergent; sanctioned by the Resident in First Assistant's letter, No. 311, of 2 March 1855.
	9. Burra Juntakul canals - - -	2,203 4 1	1,309 15 7	1,309 15 7	Completed 30 June 1855 - - - - - -	Emergent; sanctioned by the Resident in First Assistant's letter, No. 503, of 26 March 1855.
	10. Chota - ditto - ditto - - -		612 15 5	612 15 5	Completed 30 June 1855 - - - - - -	Emergent; sanctioned by the Resident in First Assistant's letter, No. 503, of 26 March 1855.
	11. Ginneygeyree tank - - - -	484 2 5	460 9 7	460 9 7	Nearly completed - - - - - - -	Emergent, and under 500 rupees; sanctioned by the Resident in First Assistant's memorandum, No. 594, of 9 April 1855.
	12. Yelboorgah talook cutcherry - -	266 8 –	268 8 –	266 8 –	Completed 8 July 1855 - - - - - -	Emergent, and under 500 rupees; sanctioned by the Resident in First Assistant's memorandum, No. 594, of 9 April 1855.
	13. Sindnoor - - ditto - - -	37 2 8	37 2 8	37 2 8	Completed 15 July 1855 - - - - - -	Emergent, and under 500 rupees; sanctioned by the Resident in First Assistant's letter, No. 757, of 1 May 1855.

* Only these three included in Budget of repairs for 1854-55; the others all emergent, and would not brook delay.

Linsoogoor, 29 August 1855.

(signed) *J. G. Balmain*, Deputy Commissioner, Western Division, Raichore Doab.

STATEMENT of New PROJECTS of WORKS recommended for Sanction in the recently CEDED DISTRICTS in the DEKHAN for 1855-56.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Time required for Completion.	Estimated Cost.	Estimated Expenditure in 1855-56.	REMARKS.
	1st CLASS ROADS.		*Rs. a. p.*		
Western Division, Raichore Doab.	1. From Toandihal, south bank of Kistna (S. E.) (in continuation of contemplated road from Moodebhal), through Leckihal, Moodgul, Meedukinhal, Bussapoor, Sindnoor, and Yeddugunhall (opposite Hutcholy) on Toomboddra, 66 miles, whereof two-fifths may be red and three black soil, breadth six yards, to be laid in moorum, with single ditches in red soil and double in black; say - - - - - - -	- - -	31,800 - -	Dependent upon the orders of Government and the means available for carrying out those orders; the first and third roads noted below, with Nos. 1, 3, 7, and 9, are those most calculated to be useful alike to the Raichore Doab, and the Belgaom, Dharwar, Bellary, and Cuddapah collectorates. The increase of net revenue (80,000 Co.'s rupees) for 1854-55 upon what it was handed over at, might apparently, without injustice, be expended for the improvement of the division and the benefit of its inhabitants, by returning into circulation amongst them a portion of what had been collected from themselves.	1. To open up direct communication between the Sholapoor and Belgaom collectorates, and the roads recently made from Adonie towards Madras.
	2. From Lingsoogoor (W.) to Leckihal (or nearest point of road passing through that place from Moodgol to Sindnoor), 20 miles; half black and half red soil, same as above; say - - - - - - - - - - - - - - - - - -	- - -	9,000 - -		2. To connect Lingsoogoor and Shorapoor with Belgaom collectorate, and westward.
	3. From Moodgul (S. W.), through Moodoonoor, Kooshtagee and Yelboorgah to Dharwar frontier towards Nurregul and Guddug, 58 miles, whereof four-fifths may be black and one red soil, same as above; say - - - - - - - - - - -	- - -	27,600 - -		3. To place Lingsoogoor and the north-eastern portions of Raichore Doab in communication with Dharwar and Western Coast.
	2d CLASS ROADS.				
	4. From Lingsoogoor (N. E.), through Goorgoontah towards Deodroog, 22 miles, whereof two-thirds are black and one red soil, same as above; say - - - - - -	Cannot be given. Must depend upon orders of Government, and means available for carrying on work when authorised.	5,900 - -		4. In furtherance of above.
	5. From Lingsoogoor (E. S. E.) to Pamun Kelloor, on Raichore and Hyderabad Road, 12 miles, whereof three-fourths are black and only one red soil, same as above; say -		3,300 - -		5. To facilitate communication between Lingsoogoor (and westward) Raichore and Hyderabad.
	6. From Lingsoogoor (S. S. E.) through Santakelloor and Mooshkee to Bussapoor (towards Sindnoor and Adonie), 26 miles, whereof half may be red and half black soil, same as above; say - - - - - - - - - - - - - - -		6,500 - -		6. To make No. 1, above, available for Lingsoogoor and its neighbourhood.
	7. From Gungawutty (N. E.) through Sedapoor, Boorgooppa, and Rowlcoondah to Sindnoor, 36 miles, whereof nearly all is black soil, same as above; say - - - -		10,800 - -		7. To open up the fertile country along northern bank of Toomhuddra.
	8. From Gungawutty (W. S. W.) through Busswaputtun and Indree to Ginneygeyree (on Copaldroog Road), 24 miles, two-thirds red and one black soil, same as above; say -	- - -	5,600 - -		8. In continuation of above.
	9. From Copaldroog (N. W.), through Kookanoor to Yelboorgah, 27 miles, whereof so little is red that the whole may be assumed as black, same as above; say - - -	- - -	8,100 - -		9. To open up western talooks and give full scope to the 1st Class road from Eastern Raichore (through heart of Doab) *viâ* Sindnoor and Konageree towards Dharwar, estimated for on 2d September 1854.
	10. From Copaldroog (S. W.), through Conroor to Dharwar frontier, near Moondurgi, 20 miles, all black soil, same as above; say - - - - - - - - -	- - -	6,000 - -		To afford facilities for transport of local produce.
	11. From Kooshtagee (E.), through Tawurgeeree to Newli, 30 miles, whereof two-thirds are red and remainder black soil, same as above; say - - - - - - -	- - -	7,000 - -		
	12. From Kooshtagee (N. N. W.), through Kumunnsagur and Hooleygeyree to Belgaom frontier, near Hoongoond, 27 miles, whereof half may be red and half black soil, same as above; say - - - - - - - - - - - - -	- - -	6,750 - -		
	TOTAL - - - *Co.'s Rs.*	- - -	1,28,350 - -		

N. B.—Besides the above, will be found in statement of New Projects of Works for 1854-55, sent in with letter No. 328, of 2d September 1854, amongst other estimates those for three following lines of road; viz., from Lingsoogoor (S.) to Kumply, 70 miles, 28,000 rupees; from Holigi (N. W.) to Dharwar frontier, 32 miles, 16,000 rupees; and from Eastern Raichore (W. S. W), through Sindnoor and Nowlie to Dharwar frontier, 86 miles, 51,600 rupees; they, with the twelve now submitted, would make the aggregate of 556 miles at a cost of 2,23,950 rupees, given in Deputy Commissioner's letter to First Assistant Resident, No. 238, of 24th July 1855.

Roads seem the first requisite as calculated to facilitate importation of food in bad seasons, and export of produce generally in good, thus creating a demand for irrigation, whereas the latter without former, would create local gluts and fall of prices ruinous to the cultivator; for grain bought ever so cheap, if carried any distance on bullocks, will not remunerate.

Lingsoogoor, 29 August 1855.

(signed) *J. G. Balmain*, Deputy Commissioner,
Western Division, Raichore Doab.

NOTE by the Secretary in the Public Works Department (Public).

Hyderabad, Public Works' Report, for 1854-55 and 1855-56.

IN March last the Resident submitted budget of proposed expenditure for 1855-56, but as he appeared not to wish to undertake the works till supplied with an engineering establishment, no sanction was given.

The present report is of a mixed nature, it is partly a budget and partly a progress report; or rather it is a collection of budgets for 1855-56, and progress reports for 1854-55, from each district, sent in answer to the call from this office for a report on the operations of the Public Works Department for 1854-55.

(A.)—REPORTS for 1854-55.

NORTHERN BERAR.—Expended on Sanctioned Works:	Rs.	a.	p.

(B.)—PROPOSED EXPENDITURE.

NORTHERN BERAR:

Statement, No. 1:

				Rs.	a.	p.
11 naib's cutcherries, at *Rs.* 1,704	1	3	-	18,744	13	9
4 ,, ,, 1,056	9	7	-	4,226	6	4
5 court-houses - - - - 1,575	4	9	-	7,876	7	9
17 thannah and choultries 467	3	5	-	7,942	10	1
A sarai			-	1,677	7	9
Repairs to Ellichpore aqueduct			-	883	7	4
A wall on the river bank, at Serrigaum			-	1,610	6	4
Fair-weather roads			-	10,000	–	–
			TOTAL - - - *Rs.*	52,961	11	4

Statement, No. 2:

		Rs.	a.	p.
Weighing-house (juck)	-	4,507	9	1
Fair weather roads	-	9,429	7	1
	TOTAL - - - *Rs.*	13,937	–	2

The Ellichpore aqueduct appears to be an earthen pipe, three miles long, laid underground.

The next item is described in the estimate as "A wall on the bank of the river at Serrigaum," which cuts its banks in the monsoon, when it is full, and runs through the village. There is no map or other information regarding it, and the estimate appears to have been drawn up by a native surveyor.

The Resident merely says, "I beg to recommend the erection of the public buildings enumerated by Mr. Bullock;" and refers to two for which sanction has been separately asked.

As these buildings are, no doubt, very much required (Mr. Bullock says, "with the exception of three naib cutcherries, there is [was?] no Government building in all Berar for any public office), and considering that the buildings are small, and do not require any particular skill in construction, I beg to recommend them for sanction.

The "wall on the bank of the river" had better be left till the matter be reported on by a competent officer.

The subject of fair-weather roads is a general one, to which I purpose to draw attention at the close of this note.

SOUTHERN BERAR:

Statement, No. 1:

		Rs.
2 gaols	-	22,917 ¼
1 sudder cutcherry at Mekham	-	3,500
1 ,, treasury and guard-room	-	2,000
10 naib's cutcherries, at 1,500 rupees	-	15,000
5 - ditto - - at 600 rupees	-	3,000
5 stands for rain gauges	-	75
2 moonsiffs' adawluts	-	3,000
164 miles of road, at 600 rupees	-	98,400
120 - ditto - 1,000 rupees	-	1,20,000
Clearing out kusbahs and villages	-	25,000
Restoring 500 wells (out of 6,000 reported out of repair), at 100 rupees		50,000
Repairing embankment of Sonhar Lake	-	25,000
	TOTAL - - - *Rs.*	3,67,892 ¼

But

But all this is not proposed to be expended in one year; the column to show the amount proposed to be expended this year is left blank, and the sums set down appear to be little better than guesses at the probable cost of the work, some of them no better.

Major Johnston proposes to employ Captain King, of the local pension establishment, to frame detailed estimates and carry out the work.

The last three items in the statement are peculiar.

The reason given for the first of the three is, that "the towns and districts are in a most filthy state." It seems odd to propose to clean them at the expense of Government, instead of establishing conservancy regulations.

With reference to the second, it is stated that the irrigation of the district depends on wells. It seems that some explanation is necessary as to its being expected that the Government should keep the wells in repair.

The object of the project forming the third item is not, as might be supposed, irrigation, but "a variety of salts," of which it is said the lake yielded so much when in good repair, as to afford a revenue of 10,000 rupees every second or third year.

The Resident proposes to reserve all Major Johnston's schemes till the engineering establishment is organized, and does not support the proposal to employ Captain King.

The naib's cutcherries and other small works are not spoken of by the Resident. It might be left to him to sanction them, if necessary.

WESTERN DISTRICTS:

Statement, No. 1:	*Rs.*	*a.*	*p.*
11 new tanks	1,47,077	4	7
Repair and improvement of weir at Nuldroog	3,379	8	–
Gaols and other offices in the Fort of Nuldroog	20,260	8	–
394 miles of road	64,570	–	–
Rs.	2,35,286	4	7

Statement, No. 2.

A further sanction of *Rs.*6,218. 2. 1. is required for the tanks in hand, agreeably to a revised estimate.

Captain Meadows Taylor, the Deputy Commissioner, appears to have prepared surveys and detailed estimates of many of the projects, and seems to consider that he will be able to carry out the whole with native establishments. It is not intended to expend the whole sum in one year, but the column to show what expense is proposed to be incurred this year is not filled up.

There appears to have been a discussion as to where the head quarters of this district should be. Captain Taylor seems to prefer Nuldroog now, since it has proved healthy this year.

The gaols, the premises in the Fort of Nuldroog, and the project for improving the weir, the Resident proposes to refer to a competent officer when the engineering establishment is supplied.

He inclines to agree with Captain Taylor in preferring Nuldroog for the head quarters of the district, but awaits a professional report.

The Resident has sanctioned the commencement of a fair-weather road from Sholapore to Nuldroog (48 miles), at 8,965 rupees, for which he begs confirmation

He begs a general sanction to the whole scheme of roads, it being left to himself to commence each at the proper time.

The Resident recommends that the completion of the tanks in progress be sanctioned, and also the execution of the tank for Tooljapore under Captain Taylor. The first he had sanctioned provisionally.

The completion of tanks might be sanctioned, as recommended by the Resident; and the question of the tank at Tooljapore might stand over for next budget. No estimate or drawings are sent.

EASTERN RAICHORE.

No Statement No. 1.

Statement No. 2.—Completion of road from Toongbudra to Kala Chabortra Ghaut, *Rs.*14,676. 6. 2.

WESTERN RAICHORE.

Statement No. 1:	*Rs.*
Repairs to canals - - - - - - - - - -	4,350
368 miles of road - - - - - - - - - -	1,28,350
TOTAL - - - *Rs.*	1,32,700

The roads are not proposed for execution in one year.

The Resident proposes that it should be left to him to give order for the completion of the necessary roads, and expresses a hope that in improving the irrigation works on the Toonghudra for the British dominions, the Raichore Doab will also be considered.

The subject of roads is one on which the Resident makes several recommendations that powers should be given to himself, and he does not include roads apparently amongst the works requiring professional skill. The opinion of Government has already been given as to the inconvenience likely to arise from roads being undertaken without a proper survey and investigation; but I would venture to suggest that the Resident might perhaps be intrusted with some power similar to that exercised by our Commissioners in respect to the road and ferry funds, to authorise a limited expenditure on keeping up and improving the district roads, or even in forming new ones, leaving it to be understood that all the important works on roads must be left till new measures are provided for professional surveys and projects: until these can be prepared (and it may take a long time) much good may be done by opening temporary roads, even on inferior lines, provided the expenditure be confined to very economical limits.

The papers are irregular, especially in not being amalgamated into one report. This point might be adverted to in reply, and attention called to the instructions issued from this office for the future; but until the Resident is supplied with an establishment, it does not appear necessary to enter into particulars in regard to the preparation of these papers.

I would beg to recommend that the buildings urgently required for the Judicial and Revenue Departments may be built, or adapted, by such instrumentality as the Resident can command; existing roads also may be kept in a passable condition by the same means.

But I would recommend that new roads and bridges, and new irrigation works generally, be deferred until the organization of an engineering establishment.

In any future project for an annicut across the Toongbudara it would be very desirable, as suggested in the concluding paragraph of Mr. Bushby's letter, that the interest of the Raichore Doab should be considered as well as those of the Bellary district.

(signed) *W. E. Baker*, Lieut.-Col.,
Secy. to Govt. of India.

1 October 1855.

No. 1.—STATEMENT of NEW PROJECTS of WORKS recommended for Sanction in the BOMBAY PRESIDENCY, for the Year 1856-57.

DISTRICT.	DESCRIPTION OF WORKS.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
	PUBLIC WORKS DEPARTMENT.	*Rs. a. p.*		*Rs. a. p.*	
	TRUNK LINE from SEODASEOGHUR to BELLARY:				
Dharwar	1. Gravelled road from Annigherry to Hooblee	88,838 – –	2 years	50,000 – –	21 miles 7 furlongs 99 yards; bridges and culverts not included.
	2. Gravelled road from Hooblee to the Madras frontier, near Sungutkope	62,231 – –	2 years	32,000 – –	27 miles 5 furlongs 96 yards; bridges and culverts not included.
	3. Gravelled road from Dharwar to Kulgutghee, connecting Dharwar with the trunk line from Seodaseoghur to Bellary	43,973 – –	2 years	35,000 – –	20 miles 3 furlongs 64 yards; bridges and culverts not included.
	TRUNK LINE from CHIPLOON to HYDERABAD:				
Rutnagherry	4. Bridged and metalled road from Chiploon to Kurar, over the Koombharlee Ghaut	6,52,916 – –	3 years	2,50,000 – –	Length of road, including 7 miles and 6 yards of Ghaut, 42 miles 5 furlongs 136 yards. This work was included in Statement No. 2 of last year's budget as No. 40, having been sanctioned in the budget for 1854-55. The estimate mentioned in Mr. Secretary Beadon's letter, No. 110, of 26 January 1855, was 7,94,434 rupees; this was reduced to 7,28,705 rupees, as shown in last year's budget, and is now further reduced to 6,52,916 rupees, by modifying the plans of the bridges and drains.
	TRUNK LINE from HURRYHUR to BULSAR:				
Sattara	5. Cleared road from Waee to Sheerwull, *viâ* the Kamutkee Ghaut	45,231 – –	1 year	45,231 – –	Length of road 22 miles 7 furlongs 127 yards, including the Kamutkee Ghaut, 2 miles 4 furlongs 100 yards.
	GREAT NORTH and SOUTH TRUNK LINE:				
	6. Masonry bridge over the Quoina River at Kurar	99,170 – –	3 years	15,000 – –	In addition to 25,000 rupees to be paid by the Punt Prithe Nidhi, which it is proposed to spend during the first year.
Bombay	7. Diverting the Fort main drain from discharging itself near the dockyard	42,948 – –	1 year	42,948 – –	The work will be performed under the superintendent of repairs to the Board of Conservancy.
	TRUNK LINE from POONA to ARUNGABAD:				
Ahmednuggur	8. Masonry bridge over the Goar River, near Seroor	51,451 – –	3 years	20,000 – –	Width of water-way 660 feet.
	9. Gravelled road from the foot of the Imampoor Ghaut to the confluence of the Pruwara and Gunga Rivers, near Toka — *Rs.* 39,844 Masonry bridge — 5,687 Ditto — 4,626	50,157 – –	2 years	30,000 – –	Length of road 20 miles 1 furlong 102 yards.
	Carried forward	11,36,915 – –		5,20,179 – –	

(*continued*)

No. 1.—Statement of New Projects of Works recommended for Sanction in the Bombay Presidency, for the Year 1856-57.

DISTRICT.	DESCRIPTION OF WORKS.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
	Public Works Department—*continued.*	*Rs. a. p.*		*Rs. a. p.*	
	Brought forward - - -	11,36,915 - -	- - -	5,20,179 - -	
	Trunk Line from Surat to Nagpoor:				
Surat - - -	10. Gravelled road from Surat to the Songhur River - -	1,22,169 - -	3 years - -	45,000 - -	The distance from Surat to the Songhur river is 50 miles 4 furlongs and 12 yards, of which 31 miles and 35 yards are in the Guicowar's territory. The sum here entered is that portion only of the estimate which provides for embanking and covering the road with moorum, being 45,346 rupees for the portion in the British, and 76,823 rupees for that in the Guicowar's territory.
	Trunk Line from Gogo to Ahmedabad:				
Ahmedabad - -	11. Masonry bridge over the Bhogawa River - - -	1,00,819 - -	2 years - -	40,000 - -	Width of waterway 2,902 feet, to be spanned by 132 arches.
	12. Bridge over the first nulla between Gogo and Butaisur - - - - - - - - - *Rs.* 6,681				
	Bridge over the second nulla between Gogo and Butaisur - - - - - - - - 3,652				
	Bridge over the large nulla immediately beyond the village of Butaisur - - - - - 5,466				
	Culverts over the second nulla between Butaisur and Tugree, and the third nulla between Tugree and Bhudail - - - - - - - - 2,111				
	Bridge over the third nulla between Butaisur and Tugree - - - - - - - - 4,689				
	Timber bridge, in two portions, over a nulla between Tugree and Bhudail - - - - 4,195				
		26,794 - -	1 year - -	26,794 - -	
Kurrachee - -	13. Widening part of the mole from Keamara to Kurrachee from 20 to 35 feet, and metalling the increased width -	39,134 - -	2 years - -	20,000 - -	The length to be widened is 1 mile 3 furlongs 69 yards.
	Trunk Line from Hydrabad to Ajmeer:				
Hydrabad (Sind) -	14. Masonry bridge over the Foolailee River - - -	35,885 - -	2 years - -	28,000 - -	The Honourable Court sanctioned, in 1854, an estimate of 76,015 rupees for the clearance of the line from Kotree to Subzulkote, and the Bombay Government have permitted the portion of the above from Kotree to Roree (50 miles) to be proceeded with at once: 10,000 rupees will probably be expended on this portion by 30th April 1856.
	Trunk Line from Hydrabad to Subzulkote:				
	15. Bridged and raised road from Hydrabad to Kotree - -	1,46,267 - -	2 years - -	73,000 - -	
	16. Ditto from Kotree to Roree - - - - - - -	35,020 - -	2 years - -	20,000 - -	Length of road 200 miles, width 30 feet.

Assistant Secretary to Government North Western Provinces.

No. 1.—STATEMENT of NEW PROJECT of WORKS recommended for Sanction in the Punjab, for the Year 1856-57.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
CANALS:		*Rs.* *a.* *p.*	*Yrs.* *mo.* *days.*	*Rs.* *a.* *p.*	
Lahore and Googaira	1. Upper Sohag Canal Inundation, restoring and extending - - - - - - - - -	D. 1,25,258 6 1	2 0 0	50,000 – –	The estimates for this project will follow the budget. Since submitted to Financial Commissioner with Chief Engineer's letter, No. 7528, dated 28th December 1855; *vide* docket No. 7529, of same date, to address of Mr. Secretary Temple.
Lahore - - -	2. Katora Canal Inundation, restoring and extending - - - - - - - - -	D. 1,23,612 – –	2 6 0	50,000 – –	The estimates for this project will follow the budget; since submitted to Financial Commissioner with Chief Engineer's, No. 7530, dated 28th December 1855; *vide* docket No. 7531, of same date, to Mr. Secretary Temple.
Goorgaira - -	3. Masonry outlets to village cuts (Khanwah Canal)	D. 2,400 – –	1 0 0	2,400 – –	The estimates for this project will follow the budget.
	TOTAL CANALS - - -	2,51,270 6 1	- - -	1,02,400 – –	
TRUNK ROADS:					
	SUTLEJ AND BEEAS ROAD:				
	4. New line - - - - - - -	A. D. - - -	- - -	30,000 – –	*Vide* Chief Engineer's letter, No. 2377, 2564 and 2748, dated respectively the 22d and 29th August 1854, and 8th September 1854, the latter submitting rough estimate for this line from Dyalpoor to Philour. *See* also Mr. Secretary's Temple's letter, No. 2298, of 24th October 1854, forwarding copy of Secretary to Government of India's letter, No. 4486, dated 13th October 1854, sanctioning the earthwork of the road, pending submission of "detailed" plans, &c. *Note.*—The survey and estimates under preparation by Captain Gordon, executive officer. A report was made to Chief Commissioner in letter, No. 5056, dated 10th October, that Captain Gordon had been relieved of all other duties to admit of their speedy preparation.
	LAHORE AND MOOLTAN ROAD:				
	5. Estimate for metalling - - - - - Estimate submitted.	D. 18,803 6 4	1 0 0	18,803 6 4	Estimate not yet sanctioned. This money is required for metalling the stage into Lahore, where the road is very bad, and traffic great. The estimate was submitted to local Government with No. 5529, dated 29th October 1855. Chief Commissioner, in his Secretary's letter, No. 1549, of 12th November 1855, remarked on the heavy amount of the estimate, and inquired whether kunkur could not be more cheaply supplied, and whether some abatement could not be made. Superintending Engineer 1st Circle addressed on the subject, and the above inquiries made, No. 6260, dated 20th November 1855. Estimate will shortly be re-submitted.

No. 1.—Statement of New Project of Works recommended for Sanction in the Punjab (Civil) Department for the Year 1856-57—*continued.*

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
Trunk Roads—*continued.*		*Rs. a. p.*	*Yrs. mo. days.*	*Rs. a. p.*	
	Lahore and Umritsur Road:				
	6. Third coating of metal to Grand Trunk Road, Beeas and Lahore - - - - - - Estimate submitted and sanctioned.	B. 88,568 – –	0 9 0	88,568 – –	Estimate submitted to Chief Commissioner, with No. 465 C., of the 26th July 1855. Estimate sanctioned by Government of India; *vide* Mr. Secretary Temple's letter, No. 1422, of the 20th October 1855. *See* Colonel Baker's letter, No. 1762, dated 21st September 1855.
	Total Trunk Roads - - -	- - -	- - - -	1,37,371 6 4	
	DISTRICT ROADS, BRIDGES, AND DRAINS:				
Jhelum - - -	7. Raepoor Floating Bridge over the Jhelum, opposite Pind Dadun Khan - - - Estimate submitted.	D. 34,157 4 7 — This is the total amount of the estimate submitted - - 9,488 2 5 — Deduct expended from the District Ferry Funds - - - 24,671 2 8 — Balance - - - 3,047 – – — Add amount applied for to complete platform - - - 27,718 2 2 — Total demand - -		27,718 2 2	The complete estimate was forwarded to Chief Commissioner with No. 5632, dated 31st October 1855. Of the estimated sum, *Rs.*9,715 3. 9. have already been expended on account of the platform of the bridge, but being a new and unsanctioned work it is included in this statement. Chief Commissioner, in Mr. Secretary Temple's letter, No. 1578, dated 15th November 1855, gave intimation that the following recommendations had been made to Government, viz., the residue required for the platform, *Rs.*6,923. 13. 7., to be contributed by the State, and the sums required for the embankments and additional road to be granted from general revenues. *See* Government letter, No. 3078, dated 28th December 1855.
Dalhousie - -	8. District road from Shapoor - - - - That is, the old native track which leads down the left of the Ranee, by the large town of Meyle, to Shahpoor.	D. 3,000 – –	1 0 0	3,000 – –	This road is mentioned in the 10th para. of Chief Engineer's letter, No. 6113, dated 17th February 1855, relative to the preliminary arrangements for establishing the station of Dalhousie. A grant of 3,000 rupees was asked for to improve the original native track, so as to render it passable for laden mules. *See* also Chief Engineer's, No. 2 C., of 3d March 1855, and sanctioned; *vide* Military Secretary, Chief Commissioner's letter, No. 2297, of 2d August 1855. *See* Colonel Backer's docket, No. 954, of 16th July 1855.

	Total District Roads, Bridges, and Drains - - -	*Rs.*		2,19,491 4 10	
CHURCHES:					
Mooltan - -	19. New church (Cantonments) - - - -	19,208 8 –	2 0 0	9,604 – –	Plan and estimate submitted to Judicial Commissioner with Chief Engineer's, No. 649, dated 24th May 1855, but returned with Mr. Montgomery's, No. 2754, dated 31st July 1855, with intimation that the Chief Commissioner objected to the estimate as being too expensive, and requested a revised estimate on a less ambitious scale. Superintending Engineer First Circle addressed, to cause a revised estimate to be submitted, No. 2803, dated 13th August 1855. Attention called to the matter on the 6th November 1855. No. 5840 and estimate may be expected to follow the budget.
Rawul Pindee -	20. Compound wall and out-offices to station church Estimate submitted.	2,022 10 2	- - - -	2,022 10 2	A reduced estimate submitted in accordance with Chief Commissioner's instructions, and sanctioned. *Vide* Mr. Secretary Temple's, No. 1767, dated 12th December 1855.
Upper Derujat -	21. Burial-ground enclosure wall, Dehra Ishmael Khan, with chokeedar's hut - - - Estimate submitted.	1,626 12 2	0 1 0	1,626 12 2	Estimate called for with reference to letter from Chief Commissioner. Two estimates submitted to Chief Commissioner with letter No. , dated December 1855; one for a wall and hut of kutcha materials, amounting to *Rs.*379. 13. 5., the other for a wall of kutcha pukka masonry, amounting to *Rs.*1,626. 12. 2. The amount of the estimate which provides for pucca materials is entered, the Chief Commissioner having intimated his preference to a wall of pucca brick in the case of the Dehra Ghuzee Khan burial-ground enclosure. The larger estimate sanctioned, *vide* Major Macpherson's, No. 3873, dated 22d December 1855.

Umballa - -	22. Church (new) - - - - - - - - Estimate submitted.	45,060 - -	1 0 0	45,060 - -	Estimate submitted to Judicial Commissioner with No. 2785, dated 10th August 1855, and subject now before the Supreme Government; subsequently the Judicial, by letter, No. 2866, dated 7th August 1855, forwarded copy of a letter to the address of the executive officer, Umballa, with annexure from Secretary to Government of India, relative to the change made in the design of the church, and requesting a report regarding the supporting pillars, which are said to be undersized, and not of good material. Final report furnished, with 5580 of 30th October 1855, to Judicial Commissioner. Subsequently the Officiating Secretary to Chief Commissioner, in his letter, No. 1753 of the 12th December 1855, conveyed the sanction of Government (Colonel Baker's, No. 2696 of the 28th November 1855) to the change of design, as proposed by Lieutenant Atkinson, with permission to recommence work on the revised design.
Jullundhur - -	23. Church roof - - - - - - - -	2,978 - 6 for a thatched roof.	0 3 0	2,978 - 6	Estimate called for in Chief Engineer's letter, No. 7674, dated 9th April 1855, No. 1442, dated 29th June 1855, and Superintending Engineer's, No. 41 of 6th July 1855:—An estimate for providing a new roof was received on 10th October 1855; but as the estimate provided for a thatched roof, which was considered objectionable, it was returned, in order that an estimate might be framed for a light tiled roof. A report to this effect made to Judicial Commissioner on 26th October 1855, No. 5443. A revised estimate expected early in December 1855. *Vide* report to Mr. Temple, 6399 of 23d November 1855.
	24. Church seats and dunkahs, for Roman-catholic chapel - - - - - - - - Estimate submitted.	494 4 7	0 2 0	494 4 7	Estimate No. 2 of 1855-56, dated 3d August, agreeably to Preliminary Survey Report No. 4, dated 17th July 1855, forwarded to Superintending Engineer with letter No. 64, dated 3d August 1855. Estimate finally submitted to Judicial Commissioner with Chief Engineer's, No. 3664, dated 4th September 1855, and sanctioned by Chief Commissioner, as conveyed in his Secretary's letter, No. 124 of the 20th September 1855, to address of Mr. Montgomery. Copy communicated to Chief Engineer with Judicial Commissioner's, No. 3420, dated 28th, 1855.

POST-OFFICES AND DAWK BUNGALOWS:		*Rs. a. p.*	*Yrs. mo. days.*	*Rs. a. p.*	
Lower Derajat -	25. Post-office (Dehra Ghazee Khan) - - - Estimate submitted.	1,897 5 3	0 3 0	1,897 5 3	Letter, No. 53, dated 13th December 1854; estimate submitted. Superintending Engineer's letter, No. 3170, dated 28th February 1855; estimate forwarded to Local Government, with Chief Engineer's letter, No. 7508, dated 2d April 1855.
	Total Post-Office and Dawk Bungalows - £.	1,897 5 3	- - - -	1,897 5 3	
GAOLS AND POLICE BUILDINGS:					
Anarkullee - -	26. New gaol central (Second Circle to) - - - Estimate submitted; subsequently revised estimate called for.—*See* remark.	1,37,568 13 2	1 0 0	66,511 - -	Estimate submitted by order of Chief Engineer, with letter, No. 765, dated 8th May 1855. The amount entered provided for the construction of a second circle, similar to the existing one, with the addition of four carpet-weaving sheds, &c. &c. Estimate, amounting to *Rs.* 1,37,568. 13. 2., submitted for sanction through the Judicial Commissioner for the Punjab, with Chief Engineer's letter, No. 5869, dated 7th November 1855. Subsequently the Judicial Commissioner, in letter, No. 4390, dated 17th December 1855, informed Chief Engineer that the question of the erection of the second circle of the Central Gaol had been discussed, and that it had been determined that a second circle should be erected, but not the reception cells, female gaols and other buildings estimated for; certain suggestions were also given, in accordance with which, at the direction of Judicial Commissioner, Lieutenant Stewart has been requested to prepare a plan and estimate as early as possible. *Note.*—Although this modification will affect the amount set down as the estimated cost of the second circle, yet the sum entered as the demand for 1856-7 on this account may be allowed to stand as it is estimated, that not less than the amount noted will be required.
Kohat - - -	27. Gaol at Kohat - - - - - - - -	37,490 8 1	0 1 6	37,490 8 1	Plan and estimate will be submitted during December 1855. 4,000 rupees sanctioned, *vide* Government letter, No. 1367, dated 7th May 1852, as communicated in letter, No. 996, dated 20th May 1852, from Military Secretary to Board of Administration, but this sum will not suffice for the accommodation required. The estimate will follow the budget. This should be built during the year, as it will not be convenient to use the fort as a gaol hereafter.

Hooshiarpore -	28. Gaol and out-offices - - - - - - - Estimate submitted.	24,476 9 7	1 0 0		24,476 9 7	Estimate, No. 1 of 1855–56, of 15th May 1855, agreeably to Chief Engineer's letter, No. 5931, dated 10th January 1855, No. 217, of 31st October, and No. 236, of 30th November 1854, from the Commissioner and Superintendent, Trans-Sutlej States, and No. 35 of the 19th January, and No. 50 of the 30th January, from the Inspector of Prisons, forwarded to Superintending Engineer, with letter, No. 32, of 18th June 1855. The estimate, which was prepared on the requisition of the Judicial Commissioner for the Punjab, as conveyed in his letter, No. 352, of the 2d February 1855, was forwarded to that officer on the 24th October 1855, with Chief Engineer's letter, No. 5379, accompanied by a detailed report.
	TOTAL OF GAOLS AND OTHER BUILDINGS - - - - - - - - - - - -			*Rs.*	1,28,478 1 8	
	DRAINAGE AND CONSERVANCY:					The want of drainage of the country surrounding the cantonments attracted the notice of his Excellency the Commander-in-Chief, having caused much sickness amongst the troops; an estimate and plans for draining the environs of the city and cantonments of Umritsur were forwarded to Chief Commissioner, with Chief Engineer's, No. 281 C., of the 26th June last. The Chief Commissioner, in his secretary's letter, No. 1613, of 19th November 1855, intimated that the local authorities were in favour of the scheme, and that the citizens were prepared to pay a portion of the cost from the town duty funds. The demand, therefore, on account of this work is thus set down:—
Umritsur - -	28A. Drainage channel for the Umritsur city - -	D. 1,12,639 - -	- - -		28,159 12 -	One-fourth of the cost to be borne from the general revenues - - - - - *Rs. a. p.* 28,159 12 -
						Three-fourths by citizens from town duty funds and other local sources - - - 84,479 4 -
Anarkulla - -	29. Drainage - - - - - - - - - Estimate submitted.	D. 8,716 6 6	0 3 0		8,716 6 6	Estimate submitted, with letter, No. 619, dated 12th February 1855, and directed to be entered in budget by Secretary to Government of India, in letter, No. 1681, of the 21st September 1855. *Note.*—The amount here entered is the sum required to complete the drainage and conservancy arrangements; but Mr. Secretary Temple, in his letter, No. 1385, of the 13th October 1855, states that nothing further was to be attempted during the present year, but that the item ought to be incorporated in the ensuing budget.
	TOTAL OF DRAINAGE AND CONSERVANCY - - - - - - - - - - - -			*Rs.*	36,87 2 6	

No. 1.—STATEMENT of New Project of Works recommended for Sanction in the Punjab (Civil) Department for the Year 1856-57—*continued.*

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
MISCELLANEOUS:		*Rs. a. p.*	*Yrs. mo. days.*	*Rs. a. p.*	
Dehra Ghazee Khan	30. Repairs to inundation bund - - - - Estimate submitted.	A. 7,814 14 2	- - -	7,814 14 2	Estimate submitted to Chief Commissioner's, with letter No. 6910, dated 7th December 1855, and sanctioned. *Vide* Mr. Secretary Temple's letter, No. 1762, dated 12th December 1855.
Attock - - -	31. Indus Suspension Bridge - - - - - Estimate received, and will be shortly submitted with report.	D. 10,94,641 9 1	- - -	1,00,000 - -	Eleven plans relative to the suspension bridge proposed over the River Indus at Attock, submitted to Chief Commissioner with Chief Engineer's, No. 6290, of the 20th November 1855. The report of the Chief Engineer and of Lieutenant Crommelin will follow shortly.
Anarkullee - -	32. Improvements to Chief Engineer's office - - Estimate submitted.	6,440 12 9	0 4 0	6,440 12 9	Estimate submitted 24th April 1855, with letter No. 731, and forwarded to Chief Commissioner with No. 525 C., of the 4th August 1855. Estimate in abeyance: *vide* Note. With regard to the estimate for completing the improvements to Chief Engineer's office, it is stated in the Chief Commissioner's letter, No. 123 A., dated 14th August 1855, to Secretary to Government of India, para. 6, that the additions be postponed till November 1855, when the Chief Commissioner would have an opportunity of inspecting the building. *Vide* Mr. Secretary Temple's letter, No. 1362, dated 8th October 1855.
	33. Renewing bridge, No. 3, Mooltun Road -	D. 4,217 14 10	0 2 10	4,217 14 10	Estimate submitted with letter No. 993, dated 6th August 1855. Estimate called for with reference to Mr. Secretary Temple's letter, No. 628, dated 18th June 1855. Estimate and design for bridge received with Superintending Engineer's, 2d Circle, No. 819, dated 31st August 1855, but returned with Chief Engineer's, No. 4209, dated 18th September 1855, for amendment, as it was considered necessary to have the piers constructed on well foundations, in consequence of the loose nature of the soil, and the defection of the old bridge from this cause. Major Laughton's attention called to the matter on the 1st October 1855 by letter, No. 4746, and report of cause of delay in submission of estimate made to local Government. *Vide* Chief Engineer's, No. 4750, dated 5th October 1855. Estimate will follow the budget.
	TOTAL MISCELLANEOUS WORKS - - - *Rs.*	10,658 11 7	- - -	1,18,473 9 9

DISTRICT ROADS:								
Peshawur - -	10. Road from Peshawur to Fort Michnee, distant 13 miles (including bridges) - - - - - - (Estimate not yet submitted.)	- - -	D. - - -	3,692 6 6½	3,000 - -	6,692 6 6½	20,000 - -	- - - Officiating Under Secretary to Government's letter, No. 356, dated 27 January 1854, forwarded with Secretary to Chief Commissioner's, No. 144, dated 20 February 1854.
	Road from Fort Mackeson to Rymul Chabootra, including bridges (four miles) - - - - - - (Estimate not yet submitted.)	- - -	D. - - -	- - -	- - -	- - -	5,000 - -	- - - *Note.*—Estimates have not been submitted, but these are the two important roads for the emergent culverts or bridges of which provision is proposed. Also the road from Fort Mackeson to Enniel Chabootra is important. All the other demands were struck out. By confining the demands for estimates to these they may be submitted early.
	Road from Peshawur Cantonment to Fort Shubkuder, with a branch to the city (distance 18 miles, including bridges) - - - - (Estimate not yet submitted.)	- - -	D. - - -	4,083 9 1¾	4,000 - -	8,083 9 1¾	22,000 - -	- - -
	TOTAL - - -	- - -	- - -	7,775 15 8¼	7,000 - -	14,775 15 8¼	47,000 - -	— Sanctioned in Secretary to Government's letter, No. 3051, dated 14 July 1854 (sanction for earthwork only 36,000 rupees, Secretary to Chief Commissioner's letter, No. 1676, dated 28 July 1854).
Kohat - -	11. Hungoo Road - - - - - (No regular estimate.) *Note.*—This road is already open for all practicable purposes; the executive officer considers it best to leave it in its present state until more pressing works are disposed of. The sum of 5,000 rupees will be required to make temporary bridges, and keep the road in repair.	64,200 - - on rough estimate.	A. - - -	- - -	58,330 15 1	- - -	58,330 15 1	5,000 - - The original rough estimate submitted to Government amounted, with permanent bridges, to 64,200 rupees, which was subsequently sanctioned by Government and Honourable Court of Directors. *Vide* letter of Secretary to Government of India, No. 4680, dated 27 October 1854, received with Mr. Secretary Temple's letter, No. 2435, dated 10 November 1854.
	12. Kohat Kothal works - - -	22,576 10 -	A. - - -	5,973 8 7	8,000 - -	13,973 8 7	8,603 1 5	- - - Sanctioned in Secretary to Government's letter, No. 99, dated 4 September 1854.
	TOTAL - - -	86,776 10 -	- - -	64,304 7 8	8,000 - -	72,304 7 8	13,603 1 5	— Small sums are proposed for any important bridges or drains on these roads.
Meean Meer -	13. Bridge over main drain, Umritsur Road - - - - - (Estimate received, and will be submitted.)	3,160 6 11½	D. - - -	- - -	- - -	- - -	2,302 11 6	- - - Officiating Secretary Military Board's letter, No. 8989, dated 16 January 1852, and Superintending Engineer's, No. 4436, dated 26 February 1852. (Estimate received, and will shortly be submitted).
Huzara, Lower -	14. Hurreepoor and Abbottabad Road -	22,000 - -	- - -	1,11,932 2 3	5,000 - -	1,16,932 2 3	30,000 - -	- - - No sanction exists in the executive officer's office for these two works. 30,000 rupees only recommended by Chief Engineer for 1856–57. This sum will probably serve to complete the necessary culverts for which materials are partly collected. General Cotton has written urgently for the completion of this road.
	Hurreepoor and Kala Serai Road -	20,000 - -	D. - - -	59,258 14 5	2,000 - -	61,258 14 5		
	TOTAL - - -	42,000 - -	- - -	1,71,191 - 8	7,000 - -	1,78,191 - 8	30,000 - -	— Sanctioned, Secretary to Chief Commissioner's letter, No. 946, dated 13 August 1856.

1. DISTRICT.	2. DESCRIPTION OF WORK.	3. Estimated Cost.	4. Estimated Time required for Completion.	5. Estimated Expenditure in 1856–57.	6. REMARKS.
		Rs. a. p.	*Yrs. mo. days.*	*Rs. a. p.*	
FORTS, CITADELS, AND ARSENALS:					
Loodiana Fort -	1. Furnishing lightning conductors to the new powder magazine - - - - - - (Estimate submitted.)	5,022 1 9	0 6 0	5,022 1 9	Estimate called for in Chief Engineer's letter, No. 575, dated 21st May 1855. Estimate submitted to Superintending Engineer, with letter No. 39, dated 8th June 1855. Returned on 27th August 1855 for revision, and re-submitted with letter, No. 131, of 31st idem. Chief Engineer's letter, No. 4125, dated 15th September, to address of Superintending Engineer, calls for revised estimate. *Note.*—Estimate originally submitted to Military Secretary for Chief Commissioner's consideration with Chief Engineer's, No. 2278, dated 25th July 1855, was considered unnecessarily large. Instructions were therefore given to reduce the estimate, and a revised one was received with Major Laughton's, No. 1043 of 26th September 1855. In his revised estimate certain discrepancies were observed, and it was finally returned with Chief Engineer's, No. 6319, dated 21st November 1855. It may be expected during December 1855, and will follow the Budget. Since submitted with No. 7071 of 12th December 1855.
Umritsur - -	2. Repairs to Govind Ghur Fort - - -	2,19,346 12 1	- - -	10,000 - -	Recommended in Chief Engineer's letter, No. 4472, dated 2d February 1854; Military Board's letter, No. 4943, dated 25th August 1853. *See* Lieutenant Gaskoin's, No. 132, dated 17th October 1855, for further particulars touching the work. The estimate for this work was submitted to the Military Board in the early part of 1854, but no orders were passed upon it, the department being in a transition state. It should be stated that it is only intended that these repairs should be executed as the necessity for them arises; no definite time can therefore be fixed as to the period of completion, but it is not probable that a greater expense will be incurred during 1856–57 than the amount estimated. *Note.*—A duplicate of the original estimate called for, which, together with a report of the case, shall be submitted to the local Government.
Upper Derajat -	3. Branch treasury in Dulleep Ghur - - - (Estimate submitted.)	659 5 1	0 2 0	659 5 1	Estimate ordered by Chief Commissioner: *vide* his Military Secretary's letter, No. 2530 of 23d August 1855, and plan and estimate submitted with letter, No. 5477, dated 27th October 1855. Subsequently Chief Engineer inquired what would be the cost of a building of Pukka masonry (Major Macpherson's, No. 3337, dated 8th November 1855) Superintending Engineer, First Circle, addressed on the subject by letter, No. 6168 of 16th November 1855. Subsequently an estimate submitted with Chief Engineer's, No. 7056, dated 11th December 1855, providing for a building of Pukka materials, amounting to *Rs.* 1,137. 2. 4.

	4. Providing metalled floors to the corner towers in Akalgurh and Dulleep Ghur - - - (Estimate submitted.)	2,818 13 3	0 6 0	2,818 13 3	Estimate submitted on 1st September 1855, Chief Engineer's, No. 2474, dated 1st August 1855. Superintending Engineer's, No. 1397, dated 3d August 1855. Estimate submitted to Chief Commissioner: *vide* Chief Engineer's, No. 6154 of 16th November 1855, to address of Military Secretary.
		3,478 2 4	- - -	3,478 2 4	
Lower Derajat -	5. Bundhowallah Post - - - - - -	8,000 – –	0 4 0	5,000 – –	Sanctioned by Government letter, No. 278, dated 10th March 1855. Plans and estimates will be sent during December 1855. Chief Engineer's letter, No. 956, dated May 1855. Superintending Engineer's, No. 102, dated 30th May 1855. *Note.*—This work is urgent; and although the estimate has not been submitted (having been received and returned for revision), some grant should be made. Estimate will follow Budget.
Mooltan - -	6. New fort near cantonments - - - - -	2,97,946 – –	3 0 0	49,315 – –	Agreeably with Superintending Engineer's, No. 69, dated 4th May 1854. Rough estimates of this redoubt, under four different suppositions, were forwarded to Superintending Engineer with letter, No. 536, dated 10th February 1855 (authority, Colonel Birch's letter, No. 737, dated 20th November 1852). Plans, with rough estimates, received with Major Anderson's letter, No. 1548 of 13th August 1855. Instructions were issued to Superintending Engineer by letter, No. 6121 of 15th November 1855, for the preparation of a detailed estimate to follow the Budget. This estimate has since been received, and will be immediately submitted.
Jhelum - - -	7. Fortified depôt for magazine stores; supplementary estimate - - - - - -	1,794 7 5	1 0 0	1,794 7 5	*Amount sanctioned - - - - - *Rs.* 29,378 1 2 On original estimate, expended - - - 28,971 8 8 *Rs.* 406 8 6 * This amount is the original estimate of 1853-54, Military Board's Office, sanctioned by Government on the 19th August 1853; and the sum now entered is the supplementary estimate called for to complete the work, and which will follow the Budget. This estimate has since been received, and will be immediately submitted.
	A.				
Attock Fort - -	8. Barracks for 1st Regiment N. I., 1st Company Sappers, and 1st Company Native Artillery; quarters for officers, warrant and non-commissioned officers, magazine store-room, batteries, and casements for 38 guns, hospital, and out-offices for garrison, and guard-room for ditto - - - - - - - -	3,72,998 3 4	3 0 0	1,794 7 5	Estimate called for by Government on 2d May 1854: *vide* Secretary to the Government of India in letter, No. 14, dated 2d May 1854; also Chief Engineer's letter, No. 238, dated 17th May 1854. Estimate will accompany in the Budget. Estimate submitted, and will be immediately forwarded.

Lahore	9. One set of officers' quarters at the north-east corner of the Burrakwab Gah	3,361 13 4	0 7 0	3,361 13 4	The plans and estimates for this work are under preparation, and may be expected to follow this Budget.
	10. Constructing cook-house for European regiments (Estimate submitted.)	1,854 1 2	0 5 0	1,854 1 2	Plans and estimates re-submitted on the 18th September, and sanctioned by Chief Commissioner: *vide* No. 3386, dated 12 November 1855, from Major Macpherson, military secretary.
	11. Dismantling a portion of No. 1 curtain, west wall, of the citadel and building it afresh	945 7 7	0 3 0	945 7 7	This estimate has been received, and will be submitted shortly.
	12. Erecting a privy for European regiment	1,458 3 1	0 3 0	1,458 3 1	Plan and estimates will be submitted shortly.
	13. Continuation of retaining wall of the sunken roadway in front of the Hathee Gateway	1,764 8 8	0 4 0	1,764 8 8	Plans and estimates in course of preparation. A committee of survey was held on the 18th September 1855, and the work recommended. Estimate received with Major Laughton's, No. 1262 of 23d October 1855, but returned with Chief Engineer's, No. 6256 of 20th November 1855, for revision, as the wall estimated for was not considered strong enough to retain the pressure of the earth. The estimate may be expected to follow the Budget.
		9,384 1 10	- - -	9,384 1 10	
Peshawur Fort	14. Temporary barracks in the fort for 2 European officers and 36 men (Estimate submitted.)	4,580 14 5	- - -	4,580 14 5	Estimate framed with reference to letter, No. 796, dated 7th July 1855, from Quartermaster-general of the army to Military Secretary to Chief Commissioner. Estimate submitted with No. 8328, dated 18 January 1856.
EUROPEAN ARTILLERY LINES:					
Umballah	15. Two wash houses (Estimate submitted.)	5,613 11 8	0 6 0	3,498 11 8	The execution of this work was ordered in Colonel Boileau's (late superintending engineer, North Western Provinces) letter, No. 923 of the 22d June 1852, and the work is being proceeded with by contract. Estimates and plans submitted.
	16. Addition to dry-room quarter guard (Estimate submitted.)	3,370 8 4	0 6 0	3,370 8 4	Estimate framed with reference to the Government order of May 1854, authorising the addition of an orderly room to all existing guard-rooms, as communicated in Military Secretary, Major Macpherson's, No. 1215, dated 5 June 1855.

	17. Making two wells	1,200	–	–	0	4	0	1,200	–	–	Estimate submitted with Chief Engineer's, No. 5259, dated 22d October 1855, but returned by Military Secretary with No. 3242 of 31st October 1855, with inquiry whether reduction can be made in amount. Estimate re-submitted with letter, No. 6869, dated 6th December 1855.
	18. Workshop for artillery division	2,400	–	–	0	4	0	2,400	–	–	Estimates and plans will be submitted during December 1855.
		12,584	4	–	-	-	-	10,461	4	–	
Mooltan	19. Barracks for nine married soldiers (Estimate submitted.)	12,332	1	10	1	0	0	12,332	1	10	Estimate submitted to Chief Commissioner, sanctioned by Government: *vide* Major Macpherson's, No. 3400 of 13th November 1855, on condition that the work is undertaken when circumstances admit, that is to say, when funds are available.
Jullundhur	20. Plunge baths	3,068	6	10	0	3	0	3,068	6	10	Plunge baths sanctioned by Government: *vide* Colonel Baker's, No. 1810 of 20th June 1855; Military Secretary to Chief Commissioner, No. 2330 of 6th August 1855. Estimate received with No. 1188 of 11th October 1855, from Superintending Engineer, Second Circle, and will be immediately submitted.
	A.										
Ferozepore	21. Addition to European foot artillery barracks	15,313	14	3	0	6	0	15,313	14	3	A special committee recommended these additions for sanction of Government: *see* Military Board's letter, No. 481, dated 15th May 1854, to Quartermaster-general of the army. A second committee assembled since, and suggested certain additions and improvements, for which estimate and plan were submitted with Executive Officer's letter No. 45, dated 5th October 1854, in reply to Chief Engineer's letter, No. 367, dated 8th December 1854. Revised estimate received with letter, No. 84, dated 21st July 1855: *vide* Superintending Engineer's letter, No. 566, dated 31st July 1855; returned by Chief Engineer as not sufficiently matured: *vide* No. 4016, dated 13th September 1855. Estimate may be expected to follow the Budget.
	22. Saddlery and harness rooms for No. 17 light field battery (Estimate submitted.)	2,155	9	1	0	3	0	2,155	9	1	Estimates and plans submitted to Superintending Engineer with letter, No. 261, dated 20th April 1855. Revised estimate submitted with letter, No. 132 of the 1st September, and by Superintending Engineer: *vide* letter, No. 917, dated 14th September 1855, and submitted to local Government.
	23. Single fives' court, artillery division (Estimate submitted).	2,677	6	–	0	4	0	2,677	6	–	Estimate submitted to Chief Commissioner: *vide* Chief Engineer's letter, No. 4131, dated 15th September 1855.
	24. Workshop for artillery division	2,000	–	–	0	4	0	2,000	–	–	Estimate and plan called for will be submitted during December 1855.

1. DISTRICT.	2. DESCRIPTION OF WORK.	3. Estimated Cost.	4. Estimated Time required for Completion.	5. Estimated Expenditure in 1856–57.	6. REMARKS.
EUROPEAN INFANTRY LINES:		*Rs. a. p.*	*Yrs. mo. days.*	*Rs. a. p.*	
Meean Meer - -	25. Almirahs for mess - - - - - European troops - - - - - - (General Estimate submitted.)	1,176 – –	- - -	1,176 – –	Estimate ordered: *vide* Chief Engineer's, No. 3453 of 29 August 1855, agreeably to orders received from his Excellency the Commander-in-Chief, as communicated in Quartermaster-general's letter, No. 839, dated 18 July 1855. Correspondence and a general estimate, amounting to 10,800 rupees, for supplying the whole of the European troops in the Punjab, submitted with Chief Engineer's, No. 3345 of 24 October, to Major Macpherson.
Pindee - - -	26. Barracks and out-offices for married men - (Estimate submitted.)	1,30,431 15 –	1 3 0	87,670 – –	This estimate was called for by Government: *vide* Secretary to Military Board's letter, No. 9978, of the 27th January 1853, and Superintending Engineer's letter, No. $\frac{26}{452}$ dated 25th May 1853, and submitted by Executive Engineer on the 10th March 1855, with letter, No. 280, same date. Estimate submitted to local Government on the 24th October 1855: *vide* Chief Engineer's letter of that date to Major Macpherson, military secretary, No. 5364.
	27. Cook-room for single men barrack - - (Estimate submitted.)	28,090 8 10	0 6 0	28,090 8 10	This estimate submitted to Chief Commissioner, with letter, No. 3238, dated 23d August 1855. (Chief Commissioner in his Military Secretary's letter, No. 2987 of 4th October 1855, requested the early submission of the above estimate, intimating that the orders of Government would be taken on the two estimates together.)
Rawul - - -	28. Canteen beer godown - - - - - - (Estimate submitted.)	5,153 12 6	0 3 0	5,153 12 6	This estimate submitted to Chief Commissioner, with letter No. 3346, dated 27th August 1855. Major Macpherson's, No. 3208, dated 27th October 1855, forwarded copy of a letter from Secretary to Government of India (No. 2037, dated 12th October 1855), acknowledging receipt of estimate, and remarking on the original proposal of the executive engineer, that the beer for which store-room is required should be stored in the canteen of Her Majesty's 87th Fusileers at Rawul Pindee. With reference to this remark, information was called for; the executive engineer replied that the officer commanding the regiment did not consider a separate store-room necessary. Intimation to this effect was conveyed in Chief Engineer's letter, No. 7923, of 9th January 1856, and permission solicited of Chief Commissioner to call for an estimate for alterations to the canteen, in order that the necessity for the new store-rooms might be done away with.
		1,63,676 4 4	- - -	1,20,914 5 4	

Sealkote - -	29. Permanent privies for European troops - - (Estimate submitted.)	71,191 9 11	1 6 0	60,000 – –	Estimate sanctioned by his Honour the President in Council, as conveyed in Colonel Baker's letter, No. 2069, dated 12th October 1855, as per Major Macpherson's letter, No. 3193 of 26th October 1855.	
	30. Additions to prison-house - - - - - (Estimate received, and will shortly be submitted.)	6,444 15 4	1 0 0	6,444 15 4	With reference to a communication, No. 221 of 19th May 1855, from the Quartermaster-general of the army, regarding the accommodation for the prisoners in the block cells constructed at Sealkote, directions were given in Chief Engineer's letter, No. 784, dated 31st May last, to the address of Superintending Engineer, First Circle, for the preparation of an estimate to provide additional accommodation, agreeably to the survey report of a committee: this estimate has been received, and will be shortly submitted.	
	31. Furniture to prison-house - - - - - (Estimate submitted.)	419 4 8½	1 0 0	419 4 8½	Estimate submitted; report of a committee, and indenture, dated June 1855. Estimate sanctioned by Chief Commissioner: *vide* Major Macpherson, Military Secretary's letter, No. 2931, dated 28th September 1855.	
	32. Additional wells, tanks, and drains to bath room (Estimate submitted.)	15,570 15 –	1 0 0	15,570 15 –	Estimate submitted to Chief Commissioner, and now before Government.

Peshawur -	194. Substitution of pucka for kutcha brick-work to 16 half-company barracks remaining of the number originally provided for on sanctioned estimate - - -	3,00,000 – –	- - -	Dependent on the sanction being given to the change of material - - - - -			3,00,000 – –	- - -	The estimates for the half-company barracks at Peshawur (*vide* Military Budget, Statement No. II, under head of Artillery Lines Peshawur, and European Infantry Lines Peshawur), as originally sanctioned by Government, provided for kutcha brick-work; subsequently, the Executive Engineer received orders from the Military Board in their letter No. 10,097 of 20th February 1852, to substitute pucca masonry in the barracks whenever bricks and lime, in sufficient quantities, were available. The Executive Engineer of Peshawur, Lieutenant Hyde, on the 12th of November 1855, reported that he had commenced upon the remaining 16 half-company barracks required to complete the company barracks at that station, and urged that he should have permission given him to construct them entirely of pucka brick and mortar, of which he had a full supply, instead of kutcha material. Application was accordingly made for sanction, [*vide* Chief Engineer's letter No. 6,466, dated 24th November 1855], to address of Military Secretary. The cost on rough estimate (as noted in Column 3 of this Statement) will amount to three lakhs of rupees, which must be considered as an addition to the several sums that have already been sanctioned on estimate for the European barracks at Peshawur, as stated in Chief Engineer's letter No. 8,392 of the 21st January 1856. Complete estimates have been called for, for the whole 16 barracks, and will be submitted shortly.

STATEMENT Y., No. 2.—STATEMENT of Expenditure within the Year 1856–57, proposed to be made upon Sanctioned Works in the Tenasserim and Martaban Provinces—*continued*.

DISTRICT.	DESCRIPTION OF WORK.	Total Estimate Sanctioned.	Amount already Authorised to be Expended.	Amount already Expended.	Amount to be Authorised for the Year 1856–57.	Further Amount that will be required for Completion.	REMARKS.
		Rs. a. p.	*Rs. a. p.*	*Rs. a. p.*	*Rs. a. p.*	*Rs. a. p.*	
	NEW CANTONMENT:						
Shoey Gyeen - -	Clearing jungle, making roads and digging wells - -	Under general sanction, and in anticipation of estimates being now prepared -	—	—	—	—	
	ARTILLERY:						
	One barrack, one cook-house, one washhouse, one privy, one guard-room, including canteen, one solitary cell, one staff serjeant's house, ordnance department, and one cook-house for ditto - - - - - - -						
	EUROPEAN INFANTRY:						
	Four barracks, two cook-houses, two washhouses, two privies, one guard-house, including orderly room and canteen, two solitary cells and one store-room, one hospital, with one cook-house, one privy, and one dead-house -						These figures apply to all the works connected with the new cantonment taken collectively, with exception of the commissariat buildings, and are intended to represent the probable expense likely to be incurred, in the absence of any absolute data to be guided by, in these recently acquired provinces, where the cost both of labour and materials of every description is so arbitrary, and liable to fluctuate at different seasons of the year, that to attempt calculations based on very limited experience would be too hazardous and unsafe an operation, at least for the present; but according as arrangements develop and become mature, measures will be adopted to introduce method on the system ordinarily established.
	NATIVE INFANTRY:						
	Five barracks, four cook-houses for castes, one guard-room, including store-room and two solitary cells, one hospital, with one cook-house, and one privy.	about 52,000 - -	In anticipation of estimates ordered, and in course of preparation - -	20,000 - -	32,000 - -	- - -	
	IRREGULAR CAVALRY:						
	One barrack, three cook-houses, one guard-house, including store-room and four stables - - - - -						
	SAPPERS:						
	One barrack and one cook-house - - - - -						
	GUN LASCARS:						
	One barrack and cook-house - - - - - -						
	MISCELLANEOUS:						
	One powder magazine, and two sheds for boats and guns, soldiers' garden and pleasure ground - - -	- - -	- - -	- - -	- - -	- - -	Plan of the ground has been furnished to Mr. Scott, Botanical Garden, in Calcutta, appointed to the special duty in Pegu.
	COMMISSARIAT:						
	One godown, including office, one granary, one staff serjeant's house, and one cook-house - - - - -	5,000 - -	- - -	1,000 - -	4,000 - -	- - -	These figures represent only the probable expense as already expended.
	Engineer's store shed - - - - - - - - -	400 - -	- - -	- - -	400 - -	- - -	Agreeably to estimate prepared and submitted, but since returned for sufficient sanction.
	Amount of Estimate for annual repairs to existing buildings in Fort, Commissariat Branch included - -	2,300 - -	- - -	- - -	2,300 - -	- - -	This sum is also competent, and in anticipation of orders of Government on Report of Buildings by Committee, held this day, 3d January 1856, to provide shelter for the troops during the coming rains.
	FORTIFICATIONS:						
	Two bastions to be enlarged - - - - - -	These works have been authorised by the Governor-general, *vide* Military Secretary to Government letter No. 696, dated 22d December 1854, to Major-general Sir S. W. Steel, K. C. B., Commanding, Pegu, conveyed in Superintending Engineer's letter No. 34 M., dated 8th February 1855, but cannot be entered upon till a lull occurs in the more pressing works.					
	One tank bund to be removed - - - - - -						
	Slopes to north of fort to be scalped - - - -						

Pegu, Superintending Engineer's Office, Rangoon, 17 January 1856.

	Three cattle sheds	3,297 2 3	– – –	3,297 2 3	Sanctioned, 20th June 1856.

No. 1.—Statement of New Projects of Works recommended for Sanction in the Province of Pegu, for the Year 1856–57—*continued.*

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856–57.	REMARKS.
	Theyatmew Division—*continued.*	*Rs. a. p.*	*Years. months.*	*Rs. a. p.*	
Theyatmew—*contd.*	Library	- - -	- - -	- - -	Plan and estimate returned, not being agreeably to standard plan received with Colonel Baker's, No. 1900 of 25th April 1856.
	Half company barracks, 65th Native Infantry	- - -	- - -	- - -	Plan and estimate returned for amendment.
Pegu	Completing fort wall	3,642 – –	Unknown	No return received	Sanctioned, 28th February 1856.
	South-east bastion	7,264 – –			
	South-west bastion	8,138 – –			
	Magazine in the fort	4,152 – –	- - -	- - -	Sanctioned, 24th March 1856.
	Half company barracks for native infantry	- - -	- - -	- - -	Estimates returned for amendment.
	Church	36,958 – –	- - -	- - -	Estimate retained pending orders.
Tonghoo	The force at Tonghoo consists of one regiment of European infantry, two of native infantry, two companies of artillery, with a light field battery, and one company sappers and miners and Commissariat and Ordnance Departments, for whose accommodation buildings complete will be required, but no estimates, bills, or returns have been furnished to this office by the executive engineer.				
Meeaday	No return received. The subject of re-modelling Meeaday, and making all the buildings pucca, is under consideration.				

(signed) *John Glasfurd*, Lieutenant-Colonel,
Officiating Superintending Engineer in Pegu.

No. 2.—STATEMENT of Expenditure within the Year 1856–57, proposed to be made upon Sanctioned Works in the Province of Pegu.

DISTRICT.	DESCRIPTION OF WORK.	Total Estimate Sanctioned.	Amount already Authorised to be Expended.	Amount already Expended.	Amount to be Authorised for the Year 1856–57.	Further Amount that will be required for Completion.	REMARKS.
Bassein, Henzada, Meeaday, Pegu, Rangoon, Thayetmyo, Tonghoo -	No Returns received.	*Rs. a. p.*	*Rs. a. p.*	*Rs. a. p.*	*Rs. a. p.*	*Rs. a. p.*	
Rangoon Town -	Gaol wall, gate-house, and gaoler's quarters - - -	No estimate -	None - -	25,201 1 3	25,372 - -	None.	
	Main wharf - - - - - - - - - -	63,000 - -	None - -	24,680 - -	38,680 - -	None.	
	Roads and canal - - - - - - - - -	No estimate -	None - -	6,04,158 9 -	3,00,000 - -	2,12,800 - -	
	Roads, repairs to those already made - - - - -	- - -	- - -	- - -	30,000 - -	- - -	About the same amount will be required annually for five years to come.
	Covered drains in brick and chunam, drains and sewerage -	No estimate -	None - -	3,779 4 -	4,00,000 - -	—	
	A building (according to plans already submitted) for the Government offices - - - - - - - - -	2,43,612 3 -	None - -	- - -	70,000 - -	1,73,612 3 -	No accurate information can be given, as in many parts of the town extensive piling for foundation would now be required. As the low grounds become filled in, and the water from the river kept out, the soil becomes firmer and more capable of sustaining weight, and less piling requisite.
	Government bazaars, additions to be made to as demand requires; tiles for those built, and general repairs to Government buildings during the year - - - - -	No estimate -	- - -	17,045 2 6	—	—	
	Meeaday, Prome, and Toungoop Roads:						
Arakan, Pegu -	Section Toungoop, 55 miles. From sea-coast in Arakan, to summit, Arakan mountains - - - - - - -	- - -	2,00,402 - -	1,28,277 - -	47,223 - -	- - -	At 5,500 rupees per mile = 3,02,500.
	Section Padoung, 65 miles. From summit Arracan mountains to Prome - - - - - - - - -	Correct estimate to be sent in this working season - -	3,80,569 - -	2,63,550 - -	51,931 - -	To complete; not known, but supposed to be for these amounts, minus some metalling and the large bridges. *See* mileage rates next column.	At 6,500 rupees per mile = 4,32,500.
	Section Meeaday, 47 miles. From Prome to Meeaday -		1,71,909 - -	72,930 - -	39,591 - -		At 4,500 rupees per mile = 2,11,500.
	Branch, Prome to Nataleen, 6 miles - - - - -		24,000 - -	12,000 - -	12,000 - - A.		At 4,000 rupees per mile = 24,000.
	Rangoon and Prome Road, on partial sanction - - -	- - -	- - -	- - -	R.		
	Section Rangoon, 21⅛ miles. Rangoon to Thabyoo - -	58,622 - -	58,622 - -	9,189 - -	15,686 - -	- - -	At 3,000 rupees per mile. This work is now being re-estimated and reported on.
	Section Pounday, 40 miles. Prome to Pounday by Eeingma	Lieut. Scott's estimate generally approved of by Government, but under reference -	50,000 - -	- - -	P. 1,00,000 - -	- - -	At 4,500 rupees per mile = 1,80,000. This work is now being re-estimated and reported on.
	Section Tharawaddy, 138 miles. From Pounday to Thabyoo		- - -	- - -	1,38,000 - -	Partially bridged	At 1,000 rupees per mile, to trace, clear, and open for dry weather traffic, and a correct estimate.

A. sanctioned in budget for 1855-56; B. 10,000 rupees are here entered for the preliminary cost of surveys, guards, and road establishment, stores, &c. The portions of Rangoon and Prome road (R. and P. are now in progress), and a further item of Estimate 1, as here entered, as it is believed that Lieutenant Scott's estimate has met with a general recommendation from Government, and the clearing and bridging of the line, so as to correctly estimate and open up the correct line for dry weather traffic, the most beneficial, as least expensive work may be authorised, even if the Honourable the Court of Directors do not sanction the whole line as a grand metalled one.

(signed) *A. P. Phayre,*
Commissioner of Pegu, and Agent to the Governor-General.

No. 1.—STATEMENT of New Projects of Works in the Hyderabad Assigned Districts, for the Year 1856-57.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
	NORTHERN DIVISION.	*Rs. a. p.*	*Yrs. mths. dys.*	*Rs. a. p.*	
Berar - -	- - - - - - - - -	- - -	- - - -	- - -	The Officiating Deputy Commissioner, North Berar, has submitted no Statement of New Projects of Works in that Division for 1856-57, in explanation of which, in letter No. 12 of 18th January 1856, he remarks that the statement forwarded in August last provided for all the buildings and other public works immediately required in North Berar, which have been, with one or two exceptions, lately sanctioned by the Government of India, and the others are postponed pending the appointment of an engineering establishment for the Ceded District, adding, that he has not been long enough in the district, nor does he possess the requisite knowledge and experience to authorise his recommending that any extensive works should be undertaken.
	SOUTHERN DIVISION.				
Berar - -	- - - - - - - - -	- - -	- - - -	- - -	Major Johnston, Deputy Commissioner, South Berar, sends in no Statement of New Projects of Works for 1856-57; he adverts to para. 9 of letter No. 2248 of the 26th October from the Secretary to the Government of India in the Department of Public Works, which says, "All other proposed works mentioned in the Report, and not included in the foregoing orders, must be postponed pending the appointment of an engineering establishment to the Ceded District."
Western - -	Road No. 6, between Nuldroog and Tooljapoor.	5,451 - -	during the year -	3,575 - -	The road No. 6 is the last mentioned in the Statement of New Projects of Works for 1855-56 recommended for sanction in the Western Districts at a total cost of 7,260 rupees, and referred to in para. 18 of Captain Taylor's letter No. 457 of 8th September 1855, submitted to Government with letter No. 1738 of the 15th September 1855; but the line of road then proposed extended to about 70 miles, viz.: from Nuldroog to Tooljapoor, and thence to Daraseo and Wansi. In letter No. 509 of the 9th October 1855, Captain Taylor having reported the distress experienced in his district (owing to the scarcity then prevailing) by the lower orders of the people, requested permission to begin some work that would afford local relief, and also be of public use. Of several works proposed, this road, a distance of 20 miles, on an estimate of 150 rupees per mile, aggregating 3,000 rupees, was authorised by the Resident to be commenced. The Deputy Commissioner, in letter No. 651 of the 28th December 1855, further states, that this road is rather more than half completed; that 1,876 rupees of the original estimate of 3,000 rupees has been expended, but of this sum *Rs.* 419. 7. 9. belongs to ghâts which were extra to ordinary work. If the latter sum be deducted, *Rs.* 1,456. 8. 3. has been the cost for 12 miles of road, the whole of which is mètalled throughout. In a subsequent letter, No. 2 of 1856, Captain Taylor, in consequence of the importance of this road, forwards a survey of the whole line by himself, with estimate and explanations, which, as this road has been partially done, are transmitted in full, marked No. 1.

No. 1.—Statement of New Projects of Works in the Hyderabad Assigned Districts, for the Year 1856-57—*continued.*

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
		Rs. a. p.	*Yrs. mths. dys.*	*Rs. a. p.*	
Western—*contd* -	Clearing the Fort of Nuldroog - -	2,577 6 –	- - - -	- - -	This work was sanctioned by the Resident, and commenced when the distress by famine was at its height on the 23d October, and continued till the 20th of November 1855, a period of 28 days, during which 43,671 persons were employed, being an average of 1,559 persons per day, at a cost, including contingencies, of *Rs.* 2,577. 6., or an average of 1,133 pies per day. The work done has been the removal of the whole of the ruins in the western and southern portions of the fort, and also in the eastern, as far as the Cavalier, the mounds, and other irregularities of ground, have been levelled as far as possible, the stones buried in hollows or piled in heaps, to be available in building the cutcherry, gaol walls, &c. &c. The Deputy Commissioner remarks that the place will become more healthy than it was before, while the number of persons employed daily prevented emigration and distress till the people could obtain other employment in the fields. Sanction is now required for this work.
	Road down the ghat at Tooljapoor -	1,363 7 9	During the year -	1,363 7 9	This road, the Deputy Commissioner observes, is urgently required, and the expense of its construction in a regular and durable manner will be the sum specified, as per estimate. The ghat is on the high road from Bounday and Poonah to Hyderabad, and is the pass by which all the carts and bullocks from those places, as also from Sholapoor and all parts of the Balaghat, ascend and descend. Tooljapoor, being a place of pilgrimage also, carts arrive daily with families from all parts of the Deccan, at all seasons of the year, and frequently in large number. The ghat is at present in a very bad condition, and hardly practicable for ascent by loaded carts, even with four and six bullocks attached. It was originally paved for the most part with heavy rough blocks of stone, but most part of the old pavement has been displaced and washed away by the water from the side of the hills, and part of the old revêtment also has been displaced by the same cause. Any temporary repair of the ghat would be attended with very little advantage, and therefore it is proposed to construct a new roadway on the old one, which being partly paved and the rest rock or very strong moorum, afford an excellent foundation. It will be observed by the survey, that the line of the present road leaves the old one at a corner, B., and has been taken up to A., where a spur of the hill has been cut through to the depth of about 20 feet. The old road goes round the spur, but is so steep and so cut up by deep watercourses, and so overhangs the ravine, that the present line appears much preferable. From A. to B. is the steepest part of the ascent; but as the original constructors of the road, whoever they may have been, found solid basalt rock at A., and as it would not be possible to decrease the ascent except by cutting through this bed of rock, which

				would cause very heavy expense, I am induced to recommend it should be left as it is. The breadth of the roadway in the cutting is now three feet, but will be widened to 27, *i. e.*, 21 feet roadway, and 3 feet water channels on each side. The angle at B. will also be reduced by rounding the road inside, and with a proper moorum roadway the bed of rock, which is flat, will not be observed. The north side of the road will require a revetment of an average of four feet outside the old revetment, which will be retained. It will be built of dry hammer-dressed stone, in a manner peculiar to this district, and which is very durable. On this it is proposed to have a coping of two feet high, to prevent accidents; the stones to be one foot and a half long by one foot square, hammer-dressed and laid in chunam. Water channels three feet broad and one foot and a half deep will be cut next the hill, which is rock or very strong moorum, and sloping inwards; *vide* section of roadway. On the edge of this gutter or drain kerb stones will be placed, with the end sunk at the necessary slope into the roadway. These stones will be one foot square by one-and-a-half to two feet long, neatly fitted together. The roadway will be 21 feet wide between the kerb stones, a coping of revetment, and will have a slope inwards nine inches in 21 feet, which is considered sufficient, and will be made of strong moorum rolled down. Three masonry drains will be required: one large one, with two passages for water three feet square, as per section, and two smaller ones with single watercourses, as specified in the estimate. One small watercourse crosses the road near a small temple, but the water can be turned into the old road between the temple and the hill, and thus kept clear of the new road altogether. The ascent of the ghat is 10·40 in 100 feet, and would be less but for the portion between A. and B. which has been already explained, and is shown in the level. There is no other spur or line of road available at this point of the hills. The opposite side of the ravine below the town is nearly perpendicular, and, with the exception of a very few steep irregular cattle-paths and foot-tracks, there is no other approach to Tooljapoor from the west or south but the ghat itself. From the top of the ghat to the terminus of the Nuldroog road entered above is 2,000 feet, and the connecting piece of road with two pucca drains is included in the estimate. From the bottom of the ghat the road goes on direct to Wyrag, a place of great trade, to which a branch road has been brought from the trunk road between Sholapoor and Poonah. The plan and estimate in original accompany, marked No. 2.
Road from Tooljapoor towards Homnabad; distance, 80 miles, at 300 rupees per mile.	24,000	One year		The Deputy Commissioner states that he has partially surveyed the high road from Poonah viâ Wyrag, Tooljapoor, Lowharra and Kullianee to Hyderabad; that the survey is completed as far as Kossar Sircy from Tooljapoor, a distance of about 45 miles; that the remaining portion to Hoomnabad, a distance of 35 miles, will be concluded as soon as possible, and will be submitted with the required professional particulars of soil, material, nullahs, bridges, drains, &c. The distance by trigonometrical survey being 80 miles, he has estimated on data already obtained, that 300 rupees per mile on the average will, for the present, be sufficient for laying out the road, partially covering it with moorum where needed, sloping down banks of nullahs, and the like, leaving bridges and drains for future consideration and sanction on the plans and estimates; the cost therefore will be 24,000 rupees, and the work is specially recommended by the Deputy Commissioner; it should be postponed till boundaries have been settled, and the consent of the Nizam's authorities have been obtained where it may be necessary.

No. 1.—STATEMENT of New Projects of Works in the Hyderabad Assigned Districts for the Year 1856–57—*continued.*

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856–57.	REMARKS.
		Rs. a. p.	*Yrs. mo. days.*	*Rs. a. p.*	
Western—*cont*^{d}. -	Road from eastern frontier at Owrad, viâ Nelingah, 75 miles, at 300 rupees per mile.	22,500 – –	One year - -	- - -	It is desirable, owing to the increased traffic by carts to the eastern frontier of the district, that is, to the towns of Latoor and Nelingah, that these places should be connected with the trunk road to Barsee from Poonah to Bombay by two lines of road, one viâ Nelingah and Owsah, the other direct from Latoor, the distance being respectively 70 miles from Nelingah to the western frontier, and 50 miles from Latoor to ditto.
	Road from Latoor to western frontier, 50 miles, at 300 rupees per mile.	15,000 – –	- ditto - -	- - -	The expense, at the average given above, 300 rupees per mile, will be 37,500 rupees; one ghat will occur in descent to Barsee, for which a special estimate will be submitted, but the cost will not exceed that of the Tooljapoor ghat, or 1,200 rupees. The survey of these roads will be completed and submitted before they are begun.
	Ahmednuggur road, from junction of Latoor and Nelingah roads, 100 miles, at 300 rupees per mile.	30,000 – –	- ditto - -	- - -	This road from Ahmednuggur to Ashtee and Jamkher and the Mohree ghat, to meet the lines from Nelingah and Latoor at Dhokee, is equally desirable and necessary; this will be 100 miles at the above rate of 30,000 rupees, inclusive of the ghat, for which an extra estimate, with plans and levels, will be submitted; this road, if begun, will find employment for the north-western portion of the district. The line will be surveyed as soon as possible, and the particulars submitted; portions of it will run through the Jamkheir talook of the Bombay presidency, Ahmednuggur collectorate, but as the survey will be complete throughout, it is possible perhaps that the expense of such portions as are not through lands of the Ceded Districts may be arranged with the Bombay Government on the conclusion of the work. The Deputy Commissioner further states, that the above are the lines of road at present most required with reference to the trade of the district, the public convenience, and the distribution of labour to the labouring classes, for whom it is apprehended this will be a season of distress and privation from the very partial character of the crops, and the very unusually high prices of grain already existing all over the district.
	Tank at Dharaseo (No. 13) - -	49,800 3 –	Two years - -	- - -	The survey and estimate of this work first submitted by the Deputy Commissioner with his letter No. 473, of 16th October 1854, estimate *Rs.* 33,200. 2., and forwarded to Government with letter from this office, No. 1738, of 15th September 1855, "Statement No. 1 of New Projects of Works, Western Districts."

Tank at Andoora (No. 10) - -	4,806	4	6	One year - -	-	-	-	Submitted by the Deputy Commissioner with his letter, No. 449 of 1854, estimate *Rs.* 3,204. 3., and forwarded to Government with the above letter. This village is severely distressed for water this year, and the garden cultivation dependent on it is very valuable. A petition by the people in regard to the immediate completion of this work has been recently received by the Deputy Commissioner.
Tank at Nittoor - - - -	35,400	–	–	- ditto - -	-	-	-	Submitted with his letter, No. 34 of 5th February 1855, estimate 23,600 rupees, and forwarded to Government with the above letter.
Tank at Latoor - - - -	52,056	9	6	Two years - -	-	-	-	Submitted with his letter, No. 57 of 15th February 1855, estimate *Rs.* 34,704. 6. 4., and forwarded to Government with the above letter. The Deputy Commissioner remarks, that in the above four works, the estimates of which amounted in the aggregate to *Rs.* 94,708. 11. 4., the data for expenditure was taken upon works executed at Shorapoor, but the rates of execution of earthwork and masonry are more expensive here, and therefore as a preliminary estimate to be accounted for in revised estimate, he considers that one-half more than the old rates should be taken, which would raise the amount on the four tanks to 1,42,263 Company's rupees, half of which, or say 70,000 rupees, would be required for 1856–57. The Deputy Commissioner observes, that it will not be necessary to make new surveys or levels, as when those submitted were made by him he was in possession of proper instruments, and the surveys and levels require no alteration or correction. Of the suggestions in regard to tanks, if no absolutely new works can be commenced this year, the Deputy Commissioner recommends the completion of the Nitoor and Andoora tanks, of which the bunds are already about or more than half existent. Nothing can be more favourable, he observes, than the basins, and the ground below these sites, for irrigation; both have ample water sheds, and supplies for water, and the work done in ancient times is so consolidated by age, and forms so admirable a basis for completion, that these bunds could be finished in one year, without any apprehension.

The expenses of these two tanks would be as follows:

	Rs.	*a.*	*p.*
Nittoor tank, first estimate - - -	23,600	–	–
Andoora tank, first estimate - - -	3,204	3	–
	26,804	3	–
Add half more for increase rates of earth and stone-work, high price of grain and labour, &c. - - - - - -	13,402	1	6
TOTAL - - -	*Rs.* 43,206	4	6

And the Nittoor tank would be ample for expenditure as regards employment of the people in the eastern portion of the district.

No. 1.—Statement of New Projects of Works in the Hyderabad Assigned Districts, for the Year 1856-57—*continued*.

DISTRICT.	DESCRIPTION OF WORK.	Estimated Cost.	Estimated Time required for Completion.	Estimated Expenditure in 1856-57.	REMARKS.
		Rs. a. p.	*Yrs. mo. days.*	*Rs. a. p.*	
Western—*cont*^{d} -	Construction of cutcherry and offices at Nuldroog for the Deputy Comsioner and his assistant, Company's rupees.	13,115 5 –	One year - -	- - -	This was submitted to Government, with the Resident's letter No. 2, dated 26th October 1855, addressed to Colonel Baker, who, in letter No. 2664 of 26th November 1855, called for further explanation, which is now afforded, as follows:—On comparing the plan of the old cutcherry with that of the proposed additions, and taking the west side of the present building as 95 feet, the length of the corresponding side of the new west face, 114 feet, a difference by the plan appears of 11 feet wanting for the north-west corner, at A. But in the plan of the native cutcherry, a bastion at A., which projects to the edge of the cliff, is not laid down in the plan, and will have to be removed, and this of itself will provide room for the verandah and west front, as laid down. Should this not prove to be the case, the Deputy Commissioner had proposed to modify the shape of the end of room No. 1 and verandah in some degree, either by making the end of the room and verandah semicircular, as shown by the pencil lines, or three sides of an octagon, and thus to adapt the building to the ground. It must be understood, also, that the line of the terrace as expressed in the plan No. 2 is not literally on the very edge of the precipice, but some feet retired from it. The slope to the actual edge is very slight, and by placing the foundation of the verandah as near to it as possible some few feet may be gained. The rock itself is solid basalt, and necessarily affords as safe a foundation as could be wished. Some space also intervenes between the foot of the bastion at A. and the edge of the precipice, as much as possible of which would be taken in. If, however, after the removal of the old bastion at A. there should not be quite room enough for the foundation of the west face, either square or as modified to suit the ground, it would only be necessary to lay the foundation by so much back, that is, eastward, as would allow of the west front being conveniently arranged on the ground available, which would also have the effect of making the verandah and west front of room No. 1 parallel with the wall of the old cutcherry, instead of projecting, as it does in the plan, and by however much the buildings are retired eastwards, the small entrance court at the gate and guard-room would be widened, which is desirable. To the eastward there is ample room for such a modification of plan, supposing it to be necessary, as there is another large semicircular bastion at B., which projects considerably beyond the north-eastern corner on an angle of the precipice. The Deputy Commissioner did not at the time the measurement was taken consider it necessary to show this bastion in the plan, but as he proposed to remove it to obtain stones for the foundation and walls of the cutcherry, the space it occupies would be ample for a much greater extension of the building on the east side than is required. Adhering to the present design, therefore, when the walls of the old buildings, bastions, &c., are removed, the present plan would be marked out on the ground available; and whether it were on the exact position laid down in the plan, or ten to fifteen feet, even supposing this to be necessary, to the east of it, would, the Deputy Commissioner conceives, be of little consequence, so long as the design and the arrangement of the whole building (if approved of) be preserved. The Deputy Commissioner thinks there is no other way by which union of the old and new buildings could be contrived, and therefore the present plan was submitted as the most economical arrangement he could advise. An altogether new cutcherry was not contemplated; were it so, without connexion with the old buildings, ground could be taken to the eastward, where there is ample room. The original plans of the present native cutcherry, and of the proposed cutcherry and office, are herewith sent, marked No. 3.
Total - - -		2,56,070 3 9	- - - -	4,938 7 9	

	EASTERN DIVISION.			
Raichore Doab -	- - - - - - - - -	- - -	- - - - - -	- - -	The Officiating Deputy Commissioner states that no estimates for new projects of public works in this division for 1856-57 have been prepared.
	WESTERN DIVISION.			
Raichore Doab -	1. Cart-road from cantonment of Singsoogoor, through Moodjul Tamurgeeree, Kanageeree Gungawattee and Chota Juntakul to Kumplee, a large mart in Bellary, 70 miles, breadth six yards, to be laid in mooum, with single ditches in red soil and double in black, at an average of 400 rupees per mile. (No bridges.)	28,000 – –	cannot be given -	14,000 – –	These two roads intersect one another near the centre of the division. The first, running north to south, will have only 20 miles of black soil; the second trends from E. N. E. to W. S. W., and has 40 miles of the more unfavourable basis. Both are very uniform in their direction, yet over high ground, so that they avoid most of the watercourses, or at any rate encounter as few as well could be. The first road will be highly advantageous, as placing the northern parts of the division in communication with the southern, with Comply, a large mart in the Bellary Collectorate, and with the highways to the south thereof, to say nothing of its being useful for military purposes. It would seem, however, desirable that this road should be continued eastward from the cantonment, through eastern division, Raichore. A branch from Tawurgeeree to Moodeenoor, and thence onwards in a north-westerly direction, through the Belgaum Collectorate, towards Danoor, on the Bombay tappal road, would also be desirable, as furnishing the means for goods proceeding direct from Bellary to the Sholapoor districts, instead of having, as now, to go round by Dharwar, outside the recently ceded districts.
	2. Cart-road from East Raichore through Sindnoor, Jalihal Nowli Kanageeree, Mungloor and Kookanoor (or Yelboorgah), to Dharwar frontier, near Gudding, also a large mart, same as above, 86 miles, at an average of 600 rupees per mile. (No bridges.)	51,600 – –	cannot be given -	25,800 – –	The second road recommended, between Sindnoor and Kookanoor, towards Gudding, would pass through the heart of the western division, Raichore Doab, and also afford facilities for the produce of the eastern division being taken to the western coast. For this purpose, however, it is essential that the works should be continued beyond our frontier within that of Dharwar. These two roads were included in Statement, No. 1, of New Projects of Works recommended for Sanction in the Hyderabad Assigned Districts for 1854–55, Appendix No. 27, referred to at para. 178 and 190 of the Resident's memorandum, forwarded with letter addressed to Mr. Secretary Edmonstone, No. 4, dated 6th February 1855.
	3. Construction of a metalled and bridged road from Hooligee, on north bank of Tumboodra, *vid* Capaldroog to Hulikeyree, on Bombay frontier, 32 miles in all.	63,218 10 9	cannot be given -	- - -	*Vide* copy of letter No. 20, dated 21st January 1856, from Captain Balmain, with its enclosure, No. 5, dated 3d idem, from Lieutenant G. W. Walker, Civil Engineer, 3d or Bellary Division, Madras Presidency. Plans and estimates referred to, marked No. 4, accompany.

	Tank No. 4 at Maloombra - -	760 14 2	760 14 2	10 12 6	750 1 8	- - -	Not begun.
	Tank No. 5 at Sindphul, or the Tooljapoor tank.	11,718 2 -	11,718 2 -	- - -	11,718 2 -	7,764 10 -	Not begun. The expenditure will be greater, if the amount of revised estimate is sanctioned, *vide* estimate with Captain Taylor's letter No. 6, dated 7th January 1856, which accompanies, marked No. 1. This tank is the first work proposed in statement of new projects of works recommended for sanction in the western districts for the year 1855-56 (Tank No. 5 at Sindphul), and was sanctioned in letter

							No. 2248, of 26th October 1855, from Secretary to Government in the Public Works Department. The estimate is now increased by *Rs.* 7,764. 10., in regard to which the Deputy Commissioner explains that the former level, which was taken with a roughly-made mason's level of 10 feet span, proved incorrect in the general result. The error detected gives additional height to the bund, and increases the amount of the earthwork, &c., *vide* his letter above quoted. The Resident recommends that authority to commence on the present estimate and plan be conveyed to Captain Taylor; the necessity of a store of water at this spot is very urgent both for animal and agricultural use.
	Road No. 1, between Hydrabad and Sholapore.	8,065 – –	8,965 – –	10,923 12 –	- - -	1,958 12 –	The construction of this road was recommended in the Resident's letter, No. 1738, of the 15th Sept. 1855, at a cost of 8,965 rupees for 48 miles, which received Government sanction in letter No. 2248, of the 26th October 1855, from Colonel Baker. Capt. Taylor gives the following explanation of the causes of expenditure over the original estimate in his letter No. 651, of 28th December 1855, in which completion of 15 miles for metalling, at 160 rupees a mile, equals 2,400 rupees, is further recommended, to which, as well as to the additional expenditure above referred to, the Resident solicits the sanction of Government. The Deputy Commissioner states that he deviated from the original estimate, in order to make the road stronger than it would otherwise have been by metalling it, as far as funds would allow; and so much of the cotton soil has been met with, especially in the eastern part of it, that the expense of metalling has been heavier than he originally supposed it would be, besides the heavy labour on hills, both in ascent and descent, which occurred on the line, and could not be avoided. It must also be remembered that the original estimate did not provide for metalling throughout, but only for levelling, clearing and digging drains. This road has now gone as far as the boundary of the district on both sides, and is 51 miles long; but there is a portion of about five miles on the Hydrabad side, in regard to which the Deputy Commissioner is uncertain as to whether it belongs to the district or not, which has to be completed. The whole distance done is 46 miles; of this the whole of the portion from Nuldroog to Sandoolwarree, 15 miles on the Sholapore side, has been metalled and rolled down, and is completed with the exception of kerb stones, bridges, and pukka drains, which are left for future consideration. The portion from Nuldroog eastwards, 36 miles, has been completed as far as the boundary (five miles being uncertain) as to clearing, levelling and digging drains. Of this the metalling has been completed to about a mile beyond Jokekoor, or 20 miles from Nuldroog, and a further portion, about 15 miles, remains to be metalled, which being cotton soil for the most part, is strongly recommended to be finished, like the rest. The expense of metalling is 160 rupees per mile; the morum or metal being six inches thick in the centre, and four inches at each side, and is done by contract under superintendence of the overseer.

Raichore Doab -	Repairing and clearing out the Hooligee and Sevapore canals, Estimate No. 13.	550 - -	550 - -	- - -	373 7 8	- - -	These five canals, and their offshoots, supply some 20 villages, which return about 45,000 rupees to Government, besides irrigating a quantity of rent-free land held by Brahmins, &c. The estimates are only approximate, from the want of an engineer of Public Works' Department, their preparation has had to be left to the Taloog revenue authorities. These are annual repairs and rendered necessary by deposits in, and the damage done to the bank of these canals by the Toombuddra river. The supply of water from these canals is essentially necessary for the irrigation cultivation on the north bank of the river. The works have been authorised by Government, in letter No. 4894, dated the 18th December 1855, in consequence of the Deputy Commissioner's urging the necessity of their being begun as usual, without loss of time, when the present crops are fairly cleared off the ground, and as they are not of a nature to brook delay.
